

Addendum No. 1

Union Dues Checkoff

1. Subject to the conditions and exceptions set forth herein, such employees who, as of 0001 hour on the first calendar day of the month, are assigned to a working list of employees governed by Agreements 4.2, 4.3 or 4.16 will have deducted by the Company on the payroll which includes the 24th calendar day of each month from the wages due and payable to each employee coming within the scope of this agreement, monthly regular union dues of each Division of the TCRC-CTY
2. The amount to be deducted will not be changed during the term of the applicable Agreement excepting to conform with a change in the amount of regular union dues of the TCRC-CTY in accordance with its constitutional provisions and will not include initiation fees or special assessments.
3. The Union will forward a master computer tape list to the System Manager, Payroll Accounting, Montreal, Quebec, which will contain the employee's name, Personal Identification Number (PIN) and the amount to be deducted. This list will be submitted on or before the first Monday of each established second payroll period.
 - (a) A designated officer of the Union will arrange for necessary additions or deletions to the master computer tape list account change in work status, resignation, retirement, etc., on or before the first Monday of each established second payroll period.
 - (b) Any adjustments to the amount of the Union dues deducted from an employee will be adjusted directly between the employee and the TCRC-CTY. However, if a dispute develops between the employee and the TCRC-CTY as a result of an error in the amount deducted, the principles of Item 10 will continue to apply.
 - (c) The Company will assume no responsibility for the late receipt or non-delivery of the computer tapes. In the event of late or non-delivery of computer tapes, the Company will use the last tape received and any adjustments required therefrom will be made by the TCRC-CTY.
4. Membership in the TCRC-CTY shall be available to any employee eligible under the provisions of the constitution of the Union. Membership shall not be denied for reasons of sex, race, national origin, colour or religion.
5. If the wages of an employee payable on the payroll for the period which includes the 24th day of any month are insufficient to permit the deduction of the full amount of dues, no such deduction will be made from the wages of such employee by the Company in such month. The Company will not, because the employee has insufficient wages payable to him on the designated payroll, carry forward and deduct from any subsequent wages the dues not deducted in an earlier month.
6. Only payroll deductions now or hereafter required by law, deduction of monies due or owing the Company, pension deductions and deductions for provident funds will be made from wages prior to the deduction of dues.
7. The amounts of dues so deducted from wages less sums which may be withheld pursuant to Item 8 hereof accompanied by a statement of deductions from individuals will be remitted by the Company to the designated officer or officers of the Union, as may be mutually agreed by the Company and the Union, not later than 40 calendar days following the pay period in which the deductions are made.
8. The question of what, if any, compensation shall be paid the Company by the Union signatory hereto in recognition of services performed under this Agreement shall be left in abeyance subject to reconsideration at the request of either party on 15 days' notice in writing.

9. Not more than one payment of union dues shall be made by any employee in any one month. Employees filling positions coming within the scope of more than one wage agreement in a month, shall pay union dues to the union holding the agreement under which the employee was assigned as at 0001 hour on the first calendar day of the month. Where dues have been deducted from the wages of an employee pursuant to this Agreement, and dues are payable by such employee to another union in accordance with the foregoing, application to the Company for refund of dues deducted under this Agreement shall be made by such employee.

10. The Company will not be responsible financially or otherwise, either to the Union or to any employee, for any failure to make deductions, or for making improper or inaccurate deductions or remittances. However, in any instance in which an error occurs in the amount of any deduction of dues from an employee's wages, the Company will adjust it directly with the employee. In the event of any mistake by the Company in the amount of its remittance to the Union, the Company will adjust the amount in a subsequent remittance. The Company's liability for any and all amounts deducted pursuant to the provisions of this Agreement will terminate at the time it remits the amount payable to the designated officer or officers of the Union.

11. In the event of any action at law against the parties hereto resulting from any deduction or deductions from payrolls made or to be made by the Company pursuant to this Agreement, each party will bear its own cost of such defense except that if at the request of the Union counsel fees are incurred these will be borne by the Union. Save as aforesaid the Union will indemnify and save harmless the Company from any losses, damages, costs, liability or expenses, suffered or sustained by it as a result of any such deduction or deductions from payrolls.

12. This Memorandum of Agreement is effective August 1, 1975, and shall remain in effect subject to 30 days' notice in writing from either party of desire to cancel it. If this Memorandum of Agreement is cancelled the provisions of the Memorandum of Agreement signed at Montreal, Quebec, February 16, 1955 in respect of the payment of union dues as a condition of continued preference of employment with the railway company will automatically apply as from the first calendar day of the month following the expiration of 30 days' notice referred to in the first sentence of this item.

This is in connection with the Memorandum of Agreement in respect of the operation of SPRINT and through freight trains with a conductor only crew consist on the 17th Seniority District.

During discussions leading up to the signing of the Memorandum of Agreement, the Union expressed a great deal of concern in respect to the matter of deadheading employees to and from the away from home terminal particularly in light of the new provisions dealing with the utilization of employees out of the away from home terminal.

In order to alleviate those concerns, the Company gave its assurances that the aforementioned provisions would not be used in a manner that would circumvent normal practices where deadheading is presently being done to correct an imbalance of employees at the away from home terminal in relation to the number of employees actually required to operate trains.

Furthermore, we assured you that it was not our intention to use such provisions as a source of relief in a manner that would cause employees to be held at the away from home terminal to protect service in another classification when there are employees who could be deadheaded to the away from home terminal except, of course, where it would result in delay to a train or trains.

Addendum No. 3E

Maintenance of Earnings

- (1) The parties recognize that the implementation of the terms of the Memorandum of Agreement signed in Montreal on March 29th, 1992 will require the abolition of a number of second brakeman's positions and may reduce the earnings of employees affected thereby. Therefore, maintenance of earnings protection will be afforded to certain protected freight employees who are so affected under the terms and conditions set out in this Addendum.
- (2) (a) At those home stations where, on March 29, 1992, train crews consisting of one conductor and two brakemen are regularly set up, the total number of reducible brakemen's positions, as presently defined, occupied on a permanent basis will be counted; this will include reducible brakemen's positions awarded at the change of timetable, or when crews are set-up or subsequently claimed by a protected freight employee under the freight crew consist rules then in effect but will exclude positions occupied pursuant to Article 3 of the Memorandum of Agreement dated July 19, 1990.
- (b) The equivalent number of junior employees occupying a position on a permanent basis, including conductors' positions, in such train crews will be identified. For example, at a terminal where three such train crews are set up on March 29, 1992, the three junior employees occupying a position on a permanent basis in such train crews will be identified.
- (c) Any protected freight employee identified pursuant to sub-paragraph (b) who does not now enjoy maintenance of earnings protection pursuant to any other agreement shall be afforded maintenance of earnings protection under the terms and conditions set out in this Addendum. Maintenance of earnings protection shall be confined to such employees only, irrespective of subsequent displacements.
- (3) For the purpose of this Addendum, the term "Basic Weekly Pay" is defined as one-fifty second (1/52) of the total earnings of such employee during the twenty-six (26) full pay periods preceding the effective date of the Memorandum of Agreement signed on March 29, 1992.
- NOTE:** When computing basic weekly pay, any pay period during which an employee is absent for seven (7) consecutive days or more because of bona fide injury, sickness in respect of which an employee is in receipt of weekly indemnity benefits, authorized leave of absence, or laid-off, together with the earnings of the employee in that pay period, shall be subtracted from the twenty-six (26) pay periods and total earnings. In such circumstances basic weekly pay shall be calculated on a pro-rated basis by dividing the remaining earnings by the remaining number of pay periods.
- (4) Notwithstanding the provisions of paragraph (3), the amount of basic weekly pay will, in no case exceed \$949.34.
- NOTE:** The amount specified in this paragraph (4) is the amount yielded by the following formula:
- Brakeman's through freight rate times maximum miles per month times 12 months divided by 52 weeks ($\$0.9567 \times 4300 \times 12 / 52 = \949.34).
- (5) The basic weekly pay of employees covered by this Addendum shall be maintained by payment to such employees of the difference between their actual earnings in a four-week period and four times the basic weekly pay. Such difference shall be known as an employee's incumbency. In

the event an employee's actual earnings in a four-week period exceeds four times their basic weekly pay, no incumbency shall be payable. An incumbency for the purpose of maintaining an employee's earnings shall be payable provided:

- (a) In the exercise of seniority, employees first accept the position with the highest earnings at their home terminal to which their seniority and qualifications entitle them. Employees who fail to accept the position with the highest earnings for which they are senior and qualified, will be considered as occupying such position and their incumbency shall be reduced correspondingly. [See examples of the "blocking system" set out in paragraph (9) of this Appendix]. In the event of dispute as to the position with the highest earnings to which they must exercise seniority, the Company will so identify.
- (b) Employees are available for service during the entire four-week period. If not available for service during the entire four-week period, their incumbency for that period will be reduced by the amount of the earnings they would otherwise have earned; and
- (c) All compensation paid an employee by the Company during each four-week period will be taken into account in computing the amount of an employee's incumbency.

NOTE: Employees will be allowed to book up to and including 12 hours rest (exclusive of calling time) without affecting their incumbency.

- (6) Employees entitled to maintenance of earnings, who voluntarily exercise their seniority beyond their home terminal on their seniority district rather than occupy a position at their home terminal, shall be entitled to maintenance of earnings. Such employees will be treated in the following manner: if the position they occupy at their new home terminal has lower earnings than a position they could have occupied at either their original home terminal or their new home terminal, they shall be considered as occupying the position with the highest earnings in either case, and their incumbency will be reduced correspondingly.
- (7) In the calculation of an employee's incumbency, the basic weekly pay, exclusive of any shift differential included in respect of employees assigned to a regular position in yard service, shall be increased by the amounts of any general wage adjustments applicable during the five (5) year period immediately following their job abolishment or displacement and the amount of any shift differential previously paid deducted will again be added. Following this five (5) year period, the basic weekly pay last established will continue to apply.
- (8) The payment of an incumbency, calculated as above, will continue to be made:
 - (a) as long as the employee's earnings in a four-week period is less than four times their basic weekly pay;
 - (b) until employees fail to exercise seniority to a position, including a known temporary vacancy of 90 days or more, with higher earnings than the earnings of the position which they are holding and for which they are senior and qualified at the terminal where they are employed; or

NOTE 1: In the application of sub-paragraph (b) above, employees who fail to exercise seniority to positions with higher earnings, for which they are senior and qualified, will be considered as occupying such positions and their incumbency shall be reduced correspondingly. In the case of a known temporary vacancy of ninety days or more, their incumbency will be reduced only for the duration of the temporary vacancy.

NOTE 2: The words "position with the highest earnings at their home terminal to which their seniority and qualifications entitle them" and "higher earnings of the position which

they are holding" as used in this Addendum do not include a position on which the earnings are higher than the earnings on the position from which displaced.

- (c) until the employee's services are terminated by discharge, resignation, death or retirement.

(9) EXAMPLES OF BLOCKING SYSTEM:

(a) BLOCK 1	Earnings
Freight Conductor A to B	\$3,000.00
Freight Conductor A to M	2,900.00
Freight Conductor A to P	<u>2,800.00</u>

BLOCK 2

- (b) Employees who hold a position in Block 4 must protect work as provided for in this article or their incumbency will be reduced as though they were working in such higher earning blocks. For example, employees in Block 4 who do not protect Block 2 would have their incumbency reduced by \$500.00.
- (c) Blocks shall be established after consultation with the local chairperson.
- (d) A dispute concerning the establishment of blocks will be initiated at Step 3 of the grievance procedure.

This is in connection with the Memorandum of Agreement in respect of the operation of through freight trains with a conductor only crew consist.

During discussions leading up to the signing of the Memorandum of Agreement, the Union expressed a great deal of concern in respect to the proposed sale of the Sydney and Hopewell Subdivisions. As you are aware, the sale of the line will result in the closure of Sydney and Stellarton as home stations, including the furlough board established at such home stations.

Because those home stations are the only home stations on the former 2nd and 3rd Seniority Districts, respectively, employees displaced as a result of closure will be required to place themselves at other home stations on the 19th Seniority District based on their 19th District seniority date of September 19, 1991.

In all likelihood, such seniority will not allow employees to hold a position at another home station on the 19th Seniority District other than the furlough board. However, sub-paragraph 13.2 (1)(b) of Clause 13 of the Memorandum of Agreement specifically prohibits an employee from declaring to a furlough board at another home station.

This, of course, would lead to a situation where protected freight employees would, in effect, be laid off in contravention of the Memorandum of Agreement.

To avoid such a situation, the parties agreed to include the following NOTE to paragraph 1.1 of Clause 1 of the Memorandum of Agreement:

NOTE 1: Employees whose names appeared on a seniority list for the former 2nd to 8th Seniority Districts, as described in paragraphs 46.3 to 46.9, inclusive, of Article 46 of Agreement 4.16, will be accorded status as a protected freight employee on the consolidated 19th Seniority District provided the date of their last entry into service under Agreement 4.16 was prior to January 1, 1988.

As a result, employees moving to another home station on the 19th Seniority District will be accorded protected status at such other home station.

In addition, the parties agreed that the relaxation of sub-paragraph 13.2 (1)(b) of Clause 13 would be a matter of discussion in material change negotiations preceding the closure of Sydney and/or Stellarton with a view to allowing employees who will not otherwise be able to hold work on the 19th Seniority District to declare to a furlough board at another home station in a manner agreed to in such material change negotiations.

Upon being placed on furlough boards in accordance with their status as a protected freight employee, such employees will be subject to the terms and conditions governing the administration of furlough boards. Such employees will have a seniority date of September 19, 1991 on the 19th Seniority District and, as a result, are subject to the provisions requiring employees with a seniority date subsequent to March 17, 1982 to protect service on the 19th Seniority District.

The arrangements set out in this Letter of Understanding will apply to any similar closures on either the 18th or 19th Seniority Districts. In respect to the 18th Seniority District, paragraph 1.1 (3) has been incorporated into Clause 1 of the Memorandum of Agreement. For the purpose of clarity, that paragraph reads:

NOTE 2: Employees whose names appeared on a seniority list for the former 9th and 10th Seniority Districts and the former 11th Seniority Districts, Road and Yard, as described in paragraphs 46.10 to 46.13, inclusive, of Article 46 of Agreement 4.16, will be accorded status as a protected freight employee on the consolidated 18th Seniority District provided the date of their last entry into service under Agreement 4.16 was prior to January 1, 1988.

We trust this allays your concerns.

During negotiations, the Union agreed to withdraw its proposal in respect to the length of time which employees can be held at the away from home terminal. The proposal was withdrawn on the understanding that this should not be construed as an opportunity to hold employees at the away from home terminal for excessively long periods of time.

In this respect, the Company gave its commitment that present practices in respect to time at the away from home terminal would not be altered in a manner which would serve to lengthen the time that employees are currently being held at the away from home terminal.

This is in connection with the Memorandum of Agreement in respect of the operation of through freight trains with a conductor only crew consist and specifically concerns the application of the NOTE to sub-paragraphs (a) and (b) of Clause 7.1 (11).

The aforementioned NOTES are intended to recognize the principle of seniority in determining entitlement to the conductor's position, in the circumstances contemplated in sub-paragraphs 7.1 (11)(a) and 7.1 (11)(b), on trains operating out of the away from home terminal.

It was agreed, however, that, in situations where it is necessary to utilize an employee from another home station to complete the consist of the crew for a train operating out of the away from home terminal, the employee from such other home station would work as brakeman regardless of seniority.

Dear Sirs:

With further reference to my letter of February 23rd and discussing in my office yesterday in regard to items 1 and 2 of the above letter; instructions are being issued as follows:

1. Return to home terminals of crews used to protect trains in emergency.

The instructions which have been issued and are now effective regarding the return of engine and train crews from Sarnia and Belleville are in my opinion, entirely consistent with the provisions of the Agreement. However, in order to meet your wishes and clarify the matter, the following instructions are being issued.

- (a) Every reasonable effort will be made to protect trains leaving Toronto for Sarnia with Sarnia crews, and only in emergency will Toronto crews be used. If in practice the men consider that Toronto crews are being used unnecessarily, it can be brought to the attention of the Company Officers, and if necessary, corrective action taken. The same principle to apply between Belleville and Toronto.
 - (b) When Toronto crews are used, Toronto to Sarnia, they will be returned deadhead or light-out of Sarnia, except when by so doing light running in both directions will be involved. The same principle to apply between Belleville and Toronto.
 - (c) Regular sections of 490, 492 and 502 will be protected by Sarnia crews.
2. Request made on Local Chairperson O.R.C. and U.T.U. London by Mr. Stokes for a modification of the intent of *Articles 69 and **73, with respect to the running of unassigned crews from Toronto on trains destined London and Sarnia.

* Now Article 27, Paragraph 27.12 to 27.15 inclusive, in current Agreement

** Now Article 30 in current Agreement.

The instructions issued and requests made are consistent with the provisions of the engineers' and Road Service Employees Agreement and do not require a modification of any articles of these Agreements. However, to meet your wishes and clarify the matter, the following instructions are being issued:

- (a) London train and engine crews will stand first-out at Toronto for trains to London and Sarnia train and engine crews will stand first-out at Toronto for trains to Sarnia.
- (b) As far as consistent with operating conditions, London trains will handle London traffic and Sarnia trains Sarnia traffic.
- (c) Woodstock turns will be manned by Toronto crews.

Yours truly,

General Superintendent

Addendum No. 6

Toronto July 21st, 1942

Regulations concerning the handling of chain gang crews operating into Toronto on runs off their recognized territory.

Mr. A.J. Lomas,
Toronto

We have chain gang crews coming into Toronto obviously from separate pools, as follows (not listed in any order of seniority or preference):

- (a) From Sarnia
- (b) From London
- (c) From Stratford
- (d) From Fort Erie
- (e) From Belleville

It sometimes happens that there is a shortage of a crew or crews to operate a train say for instance to Belleville, or in another instance to Gravenhurst, or Barrie or South Parry. Such a contingency, it would appear, has not heretofore been provided for with a uniform regulation to apply. Hereafter please be guided by the following:

A Toronto crew will be made up if there are men available; failing this, a London crew, first-out, if there is one available, will be used in preference to Sarnia, Stratford, Fort Erie or Belleville crews.

If there is no London crew at Toronto and there is a Fort Erie crew at Toronto, then the Fort Erie crew, first-out, will be used in preference to Sarnia, Stratford or Belleville crews, but if there is no Fort Erie crew at Toronto, but a Stratford crew is there, you will use the Stratford crew, first-out.

If there is no London, Fort Erie or Stratford crew in Toronto, you shall then use the Sarnia crew, first-out.

If there are none of the above named crews in Toronto, and it becomes necessary to run the train north, you will use the Belleville chain gang crew, first-out.

It will be obvious from the above regulation that what we are trying to do is to get the most important power back to its home station in the circumstances related.

Dear Sirs:

Referring to your letter of March 22nd in connection with train and engine crews operating in unassigned service between London and Toronto.

Instructions are being issued as follows:

Every reasonable effort will be made to protect trains leaving Toronto for London with London crews, and only in emergency will Toronto crews be used. If, in practice, you consider that Toronto crews are being used unnecessarily, the matter can be brought to the attention of the Railway Officers, and if necessary, corrective action taken.

When Toronto crews are used Toronto to London, they will be returned deadhead, or light out of London, except when by so doing light running in both directions will be involved.

The present practice of returning Toronto crews in passenger service from London (such Toronto crews having arrived London in extra passenger service) may continue, also Toronto-Sarnia trains may be filled out at Toronto with London cars for set off at the latter point.

All extra passenger service out of Toronto for London to be handled by Toronto crews, except where crew from London is available on account of having arrived in Toronto in extra passenger service, where there are surplus London crews at Toronto who will not be required in freight service, and who would otherwise be deadheaded home.

I shall be glad to have your acknowledgement that the above meets with your wishes.

Yours truly,

Dear Sir:

This refers to a meeting held with our Chaleur Area Officers in your Quebec office on December 17, 1963.

The following is an understanding arrived at during the meeting:

Commencing January 1, 1964 when unassigned train crews are operated between Moncton and Edmundston through Napadogan and between Edmundston and Joffre through Monk, the following arrangements regarding division of work between the unassigned crews at the home terminals involved will govern:

1. A reasonable balance of trips will be maintained
 - (A) Between Tenth Seniority District crews at Joffre and Edmundston
 - (B) Between Seventh Seniority District crews at Edmundston and Moncton

The Company will supply a monthly statement of trips to the Local Chairman concerned.

2. Away from home terminal crews will stand first-out for trips to their home terminal in order of off-duty times at the away-from-home terminal. This will not constitute a run-around under Article 30.
3. The Company retains its right to order crews short of the distant terminal as conditions warrant.
4. The Company will, under normal operating conditions, make every reasonable effort to ensure that trains operated between Moncton and Edmundston and between Edmundston and Joffre will complete the runs within a twelve-hour period.

The above arrangements will be subject to review at the Spring change of timetable in 1964 and thereafter they will remain in effect subject to thirty days' notice from either party to cancel or revise same.

If you are in agreement with the above, please acknowledge enclosed copies and return to this office.

CANADIAN RAILWAY OFFICE OF ARBITRATION

MEMORANDUM OF AGREEMENT made this 1st day of September 1971 to amend and renew the founding Agreement establishing the Canadian Railway Office of Arbitration dated the 7th day of January 1965 (as amended and renewed since that date).

IT IS AGREED by and between the signatories as follows:

1. There shall be established in Montreal, Canada, the Canadian Railway Office of Arbitration, hereinafter called the "Office of Arbitration".

2. There shall be a single Arbitrator hereinafter called the "Arbitrator" to be appointed by the signatories hereto who shall have the duties and functions set out herein. The administrative responsibilities of providing and administering necessary clerical staff, premises, facilities and other arrangements necessary to enable the Arbitrator to exercise his function shall be discharged by an Administrative Committee responsible to the signatories hereto and composed of one representative appointed by the signatories whose names appear in Appendix "B" hereof.

3. The arbitrator shall be appointed for a term of one year and may be re-appointed for an additional term or terms of one year as the signatories hereto may decide.

The arbitrator may be replaced at any time by mutual agreement of the signatories, temporarily or permanently in the event of his inability, refusal or failure to exercise his functions.

4. The jurisdiction of the Arbitrator shall extend and be limited to the arbitration, at the instance in each case of a railway, being a signatory hereto, or of one or more of its employees represented by a bargaining agent, being a signatory hereto, of:

- (A) disputes respecting the meaning or alleged violation of any one or more of the provisions of a valid and subsisting collective agreement between such railway and bargaining agent, including any claims, related to such provisions, that an employee has been unjustly disciplined or discharged; and
- (B) other disputes that, under a provision of a valid and subsisting collective agreement between such railway and bargaining agent, are required to be referred to the Canadian Railway Office of Arbitration for final and binding Settlement by arbitration,

but such jurisdiction shall be conditioned always upon the submission of the dispute to the Office of Arbitration in strict accordance with the terms of this Agreement.

5. A request for arbitration of a dispute shall be made by filling notice thereof with the Office of Arbitration not later than the eighth day of the month preceding that in which the hearing is to take place and on the same date a copy of such filed notice shall be transmitted to the other party to the grievance. A request for arbitration respecting a dispute of the nature set forth in Section (A) of Clause 4 shall contain or shall be accompanied by a Joint Statement of Issue. A request for arbitration of a dispute of the nature referred to in Section (B) of Clause 4 shall be accompanied by such documents as are specifically required to be submitted by the terms of the collective agreement which governs the respective dispute. On the second Tuesday in each month, the Arbitrator shall hear such disputes as have been filed in his office, in accordance with the procedure set forth in this Clause 5. No hearing shall be held in the month from time to time appointed for the purposes of vacation for the Arbitrator, nor shall a hearing be held in any other month unless there are awaiting such hearing at least two requests for arbitration that were filed by the eighth day of the preceding month, except that the hearing of a dispute shall not be delayed for the latter reason only for more than one month.

6. Subject always to the provisions of this Agreement the Arbitrator shall make all regulations necessary for the hearing of disputes by the Arbitrator which are consistent with the terms of this Agreement and such regulations may be amended by the Arbitrator from time to time as necessary.

7. No dispute of the nature set forth in Section (A) of Clause 4 may be referred to the Arbitrator until it has first been processed through the last step of the Grievance Procedure provided for in the applicable collective agreement. Failing final disposition under the said procedure a request for arbitration may be made but only in the manner and within the period provided for that purpose in the applicable collective agreement in effect from time to time or, if no such period is fixed in the applicable collective agreement in respect to disputes of the nature set forth in Section (A) of Clause 4, within the period of 60 days from the date decision was rendered in the last step of the Grievance Procedure.

No dispute of the nature set forth in Section (B) of Clause 4 may be referred to the Arbitrator until it has first been processed through such prior steps as are specified in the applicable collective agreement.

8. The Joint Statement of Issue referred to in Clause 5 hereof shall contain the facts of the dispute and reference to the specific provision or provisions of the collective agreement where it is alleged that the collective agreement has been misinterpreted or violated. In the event that the parties cannot agree upon such joint statement either or each upon forty-eight (48) hours' notice in writing to the other may apply to the Arbitrator for permission to submit a separate statement and proceed to a hearing. The Arbitrator shall have the sole authority to grant or refuse such application.

9. The Arbitrator shall not decide a dispute without a hearing. At the hearing each party shall submit to the Arbitrator a written statement of its position together with the evidence and argument in support thereof.

10. The parties to a dispute submitted to the Arbitrator may at any hearing be represented by Counsel or otherwise as they may respectively elect.

11. The Arbitrator may make such investigation as he deems proper and may require that the examination of witnesses be under oath or affirmation. Each party to a dispute shall have the right to examine all witnesses called to give evidence at the hearing. The Arbitrator shall not be bound by the rules of evidence and practice applicable to proceedings before courts of record but may receive, hear, request and consider any evidence which he may consider relevant.

12. The decision of the Arbitrator shall be limited to the disputes or questions contained in the joint statement submitted to him by the parties or in the separate statement or statements as the case may be, or, where the applicable collective agreement itself defines and restricts the issues, conditions or questions which may be arbitrated, to such issues, conditions or questions.

His decision shall be rendered, in writing together with his written reasons therefor, to the parties concerned within 30 calendar days following the conclusion of the hearing unless this time is extended with the concurrence of the parties to the dispute, unless the applicable collective agreement specifically provides for a different period, in which case such different period shall prevail.

The decision of the Arbitrator shall not in any case add to, subtract from, modify, rescind or disregard any provision of the applicable collective agreement.

13. Each decision of the Arbitrator which is made under the authority of this Agreement shall be final and binding upon the Railway, the bargaining agent and all employees concerned.

14. Through the Office of Arbitration, the Arbitrator shall report the decision in each case and the reasons for such decision to all signatories hereto.

15. The Office of Arbitration shall maintain a complete and accurate record of all disputes submitted to it and of all decisions made by the Arbitrator or other dispositions respecting them, including the signed originals of all such decisions.

16. The signatories respectively shall do all such acts and things as are necessary to enable the Arbitrator to make proper findings respecting the matters in dispute and no signatory shall obstruct, delay or prevent the Arbitrator from proceeding with the matter before him or from making his decision.

17. The expenses of operating and administering the Office of Arbitration, including the fees and expenses of the Arbitrator and all necessary clerical and technical assistance shall be borne one-half by the Appendix "A" signatories and one-half by the Appendix "B" signatories. At the commencement of each year the Administrative Committee shall estimate the total ensuing year and, at that time and from time to time thereafter during the year shall make interim preliminary assessments equally upon the Appendix "A" signatories and the Appendix "B" signatories sufficient to defray current expenses currently. At the end of each year the total annual expenses actually incurred shall be apportioned as set out and all necessary credits and debits shall be made accordingly.

18. This Agreement shall be reviewed on an annual basis by the signatories hereto, which review shall take place on or before the first day of July in each year. At the time of this review the appointment of the Arbitrator shall be made, subject to the provisions of Clause 3 hereof, and any changes or alterations shall then be implemented as may be mutually agreed upon between the signatories hereto.

19. Any other recognized bargaining agent acting on behalf of the employees of a railway company which is a signatory hereto and any non-signatory railway company together with some or all of the recognized bargaining agents which represent its employees may from time to time be permitted to accede to these presents and, except as provided below, to be regarded for all the purposes hereof as if signatories hereto and as if their respective names appeared in Appendix "A", in the case of railway companies, or in Appendix "B", in the case of recognized bargaining agents, as the case may be, by filing a suitable written instrument of accession and attornment at the Office of Arbitration; provided, however, that the validity and operation of every such instrument shall be conditioned upon the prior concurrence and acceptance of it by all the signatories hereto as evidenced by the subscription or endorsement by each of the said instrument before it is filed.

20. Railway companies and recognized bargaining agents which accede to these presents, as provided for in Clause 19 hereof, will not have the right or power to terminate this Agreement. However, any such party may, following the first anniversary of its accession and attornment withdraw from this Agreement as of the 31st day of August in any year during the term hereof by giving at least 60 days' notice in writing of its intention to withdraw to the other parties (which notice shall be given by registered prepaid post) and by filing concurrently therewith a copy of such notice with the Office of Arbitration.

21. This Agreement shall commence on the first day of September, 1971 and shall remain in effect until August 31, 1972 and shall thereafter be renewed annually unless amended or terminated by the mutual agreement of the parties hereto; provided that any signatory hereto may withdraw from this Agreement as of the 31st day of August in any year during the term hereof by giving at least 60 days' notice in writing of its intention to withdraw to the other parties (which notice shall be given by registered prepaid post) and by filing concurrently therewith a copy of such notice with the Office of Arbitration.

1. Subject to the provisions of Item 2 below train crews may be operated between Montreal and Belleville, through Brockville, Ontario.

2. If, except as a result of conditions over which the Company has no control, the operation of the train crews of any particular train on a run-through basis between Montreal and Belleville results in such crews being consistently on duty over 10 hours and/or being consistently over 9 hours operating between the designated main track switches of these terminals, the conditions applicable to the operation of train crews of such train as they relate to the run-through operation will be reviewed by the General Chairman and the General Superintendents Transportation. If settlement is not reached within ten days of the request for a review, the run through operation of the train in question will be subject to renegotiation upon request from the General Chairman to the Vice-Presidents. Such request will be in writing and must be submitted within thirty days following the review by the General Chairman and the General Superintendents Transportation. As you know, the U.T.U.(T) submitted a proposal in negotiations concerning accommodation for employees assigned to outpost positions who normally elect to drive to and from their homes but, on occasion, because of extreme weather conditions, are prevented from returning to their homes.

We are aware that in such circumstances, and when there is no other transportation available, line officers have used good judgment and made ad hoc arrangements which permit employees to make use of Company facilities where they are available, or, when they are not available, arrangements have been made at Company expense for a room in a motel/hotel. These arrangements have prevailed until the weather conditions improved enough to permit the employees to return home.

We have informed the Union that, while we are not prepared to amend the collective agreement to the extent requested, we would ask that our line officers continue to use good judgment in such situations. We would ask that you ensure that all concerned are made aware of this.

CANADIAN NATIONAL RAILWAY COMPANY

MEMORANDUM OF AGREEMENT between the United Transportation Union (T) and the Canadian National Railway Company providing the conditions which will apply to Yard Foremen on the 11th Seniority District when selected and trained as Locomotive Engineers.

Effective August 1, 1976, the Memorandum of Agreement signed at Montreal, Quebec, on December 11, 1974 is cancelled, and the following will be substituted therefor.

1. Senior classed Yard Foremen will be given full and unprejudiced consideration in the selection by the Company of candidates to accept training under the terms of this Memorandum of Agreement.
2. Bulletins calling for applications for selection as trainees will be issued to classed Yard Foremen on the 11th Seniority District to work as Locomotive Engineer on the Locomotive Engineers' 2nd Seniority District, when qualified.
3. Candidates will be considered qualified as Locomotive Engineer on the successful completion of the Company's training course. If during the training course the Company determines that a candidate is not suitable for promotion to Locomotive Engineer, his training will be discontinued and he will be advised in writing of the reason for his disqualification.
4. During the period of time that a candidate is assigned to the Company's training course the following conditions will apply:
 - (a) He will make himself available for training as required and will be paid therefor at an all-inclusive rate per calendar week the amount specified in sub-paragraph 4.1(c) of Article 4 - Rates of Pay, Training Programs.
 - (b) He will not be considered as being in a Yard Service classification and will be subject only to the provisions governing Vacations, Health and Welfare, Medicare Allowance and Bereavement Leave in the collective agreement which governed his service at the date immediately prior to his commencing training. He will also be subject to the Union Dues Agreement;
 - (c) Away-from-home accommodation will be provided when reasonably required;
 - (d) He will be allowed \$6.00 per day for meals where such are not provided;
 - (e) He will be allowed an additional sum of money equal to one-seventh of the all-inclusive rate referred to in paragraph (a) of this item for each General Holiday which falls during the period of time he is assigned to the Company's training course.
5. Candidates who have qualified as Locomotive Engineer shall thereafter be known as Engine Service Yardmen and shall be designated by the letters E.S.Y. which will be shown opposite their names on the seniority lists where their names appear.
6. Such Engine Service Yardmen when assigned to Yard Service will, when available, be required in seniority order to accept calls for work as Locomotive Engineer on a tour of duty basis. In the event that an Engine Service Yardman fails to respond to a call on a tour of duty basis, he will not be considered as available for service in any capacity until such time as the employee accepting the call has returned and is released from duty at the terminal. The foregoing penalty provisions will not apply when there are no other qualified employees available to protect a position on which the Engine Service Yardmen can be used.

7. When a Yardman is in training to be a Locomotive Engineer in accordance with the provisions of Item 4 herein or when an Engine Service Yardman is promoted to the Locomotive Engineers' working list, the employee's regular position as a Yardman will be posted as a temporary vacancy and will be filled as such until the next change of timetable.

- (a) Should an Engine Service Yardman, upon being displaced from the Locomotive Engineers' working list at any terminal, elect to return to the Yardmen's ranks in preference to exercising his seniority as a Locomotive Engineer on the seniority district, he must:
 - (i) return to the terminal to which last assigned as a Yardman and revert to the regular assignment he vacated when set up on the Locomotive Engineers' working list, or the spare board if he was assigned to such prior to being promoted; or
 - (ii) if he has been displaced off his regular assignment by a senior employee while he was set up on the Locomotive Engineers' working list go on the spare board at the terminal to which last assigned as Yardman; or
 - (iii) if a change of timetable has taken effect between the time he was promoted to the locomotive engineers' working list and the time he elects to return to the yardmen ranks he will be permitted to declare for a spare board position as yardman on his seniority district.

NOTE: Subject to (i) and (ii) of this sub-paragraph (a), when returning to the yardman ranks subsequent to the closing of change of time bids but prior to the effective date of the change he will be permitted to declare to the assignment of his choice which choice will be effective with the change of time.

- (b) If in the application of Item (ii) or (iii) of paragraph (a) hereof, an employee is unable to hold the spare board and there is a junior employee holding an assignment at that terminal, he may displace the junior employee on such assignment or exercise his seniority to a spare board on his seniority district.
- (c) The provisions of paragraphs (a) and (b) of this Item 7 will also apply to an employee upon completion of training when he is returning to a position under the Agreement.
- (d) While on the spare board an Engine Service Yardman will be called in his turn for spare work as a yardman. Such employee will also be permitted to apply for any vacancies which may come open under the provisions of the Agreement. An Engine Service Yardman will protect a Yard Foreman's vacancy pursuant to the provisions of Agreement 4.16, due regard being had to Item 8 of this Memorandum of Agreement.
- (e) When an Engine Service Yardman who is not working as a Locomotive Engineer is held back from the position to which he is assigned to protect work as a Locomotive Engineer on a tour of duty basis, he will, if so held and not used, be paid the earnings of the position to which assigned, unless he is assigned to the spare board when he will be paid a minimum day at Yard Helper's rate for each 8 hours or part thereof and stand first-out on the board (time held will be computed from the time compensation would have commenced on the tour of duty from which he was held back).

8. An Engine Service Yardman will be required to perform service as a Locomotive Engineer, in accordance with the agreement governing that classification, in preference to performing service in classifications covered by collective agreements with the United Transportation Union.

9. An Engine Service Yardman may relinquish his status as such for justifiable cause only with the prior concurrence of the proper officer of the Company and the General Chairman.

10. An Engine Service Yardman who, for any reason, forfeits or otherwise loses his right to work as such will thereafter not be permitted to make application for selection as Engine Service Yardman unless such application is agreed to by the proper officer of the Company and the General Chairman.

11. Engine Service Yardmen while working as Locomotive Engineers will retain and continue to accumulate seniority under agreements with the United Transportation Union and their names will continue to appear on the appropriate seniority lists, provided seniority rights are asserted within thirty calendar days after release from employment as Locomotive Engineer.

12. In the event interchangeable seniority rights are implemented on the 11th Seniority District, this Memorandum of Agreement will automatically be cancelled on the effective date of interchangeable rights and Engine Service Yardmen theretofore governed by this Memorandum of Agreement will be governed by Article 129 of Agreement 4.16.

The provisions of this Memorandum of Agreement shall prevail notwithstanding provisions in agreements with the United Transportation Union which may be in conflict with or restrict the full application of the provisions hereof.

One of the proposals made by the United Transportation Union in the recent negotiations was that *Article 154 - Grievance Procedure be revised.

During the negotiations, U.T.U. Officers explained that some Railway Supervisors were not complying with the provisions of *Article 154. They specifically mentioned that cases not involving monetary claims were not dealt with within the specified time limits; also, very brief replies were being given by Supervisors without dealing with the points raised by the Union Representative in his letter.

You are reminded of the importance of dealing with **all** grievances within the prescribed time limits. It is appreciated that there may be an unusual case that cannot be handled within the time limits. In such instances, you should request an extension of the time limits from the appropriate Union Representative.

The last sentence of Step 1 of *Article 154 reads: "In case of declination, the Supervisor will state his reasons from the decision in relation to the statement of grievance submitted". The wording in Step 2 is very similar. This wording clearly requires the Supervisor to deal with the points raised in the grievance.

Would you please see that this matter is brought to the attention of all Transportation Supervisors and that grievances directed to them are handled in accordance with the provisions of the wage agreement.

Gentlemen:

During the 1976 round of negotiations, you requested that the Company clarify what payment an employee would receive if he had to lose time in order to undergo a medical examination.

During our discussions, you referred to instances where employees required to undergo periodic medical examinations cannot do so without losing time because their off-duty hours do not correspond with the business hours of the medical examination facilities. An example cited was that of an employee assigned to a day shift in yard service with Saturday and Sunday as days off who has to undergo his periodic medical examination at a CN Medical Clinic. Because of the business hours of the clinic, such employee might have to lose time in order to undergo the examination.

The Company advised you that wherever practicable an employee should take his periodic medical examination during his off-duty hours and in such cases the provisions of *Article 137 of Agreement 4.16 would apply.

However, the Company agreed that in situations where this could not be done, then an employee required to undergo a periodic medical examination on proper authority from the Company during on-duty hours will be paid pursuant to the provisions of **Article 136 of Agreement 4.16.

During these discussions you also raised a situation where an employee, while in service, may be required by the Company to undergo medical examinations at other than the prescribed intervals for periodic medical examinations. An example cited related to an individual who, as a result of a diagnosis during a periodic medical examination, is required by the Company to undergo a medical examination at more frequent intervals.

The Company stated that in such cases, an employee required to undergo such examination under proper authority from the Company during on-duty hours will be paid as outlined above.

** Now Article 70 in current Agreement

During the current round of negotiations, the Company agreed that any employee who is required to travel away from his home terminal to undergo medical examination with the proper authority of Company officers will be allowed actual reasonable expenses under the principle of ***paragraph 136.6 of Agreement 4.16 whether or not he loses time.

Gentlemen:

The introduction of the new discipline system was an important step forward in our continuing effort to improve our management/union relationship. In fact, we believe it is because of the trust and commitment that has been exhibited by both sides and at all levels that has encouraged the parties to explore other problem areas that have remained outstanding between us.

One of those problem areas has been the need to address ourselves to the problems that have resolved around the Company's administration of Rule 'G'. In fact, this was made a matter of record by Mr. Oliver at the last General Chairmen's Association meeting with the President when he raised the question directly with Mr. Bandeen.

You will recall that just prior to Mr. Oliver asking his question with respect to Rule 'G' the President had already made a comment in connection with the adversary system, stating:

"I think that to a large extent many of the issues which arise in labour relations should be approached on a joint problem solving basis and within a climate of mutual cooperation."

Then, in answer to Mr. Oliver's question, he stated:

"The discipline policy is another good example of non-adversary action and I can assure you that we will find a solution to the alcohol and drug problem. It certainly has my backing."

It is, therefore, in the light of this kind of background dialogue which has taken place between the Company and the Unions that this letter of understanding has been written, it being understood that a memorandum of agreement (Appendix A) does not always portray the spirit which is intended to flow from such a document.

The purpose of the trial project dealing with the administration of UCOR 'G' is straightforward and readily understandable. Simply stated, it is designed to **provide a mechanism that will keep employees who are under the influence of alcohol or drugs from being involved in the operation of trains**. The program is first and foremost intended to enhance the safety of operations and the personal safety of employees by encouraging employee participation in helping to monitor the fitness of all employees at work and by broadening the control of this problem beyond a management-initiated policy to that of a joint management/union program.

In this connection, it is our desire to establish an environment which is more conducive to open communication among all those concerned in order that we might extend the use of present **preventive** and treatment policies and through participation of all concerned foster a more **preventive** self-policing type of program which is in the interests of everyone.

Throughout our discussions in connection with this program, we have attempted to get at the heart of the matter and have similarly tried to capture the essence of the program in a few simple paragraphs which are reflected in the attached Memorandum of Agreement. But, in order to ensure that there is little or no misunderstanding, one or two clarifying comments may be helpful in our understanding of the program.

For example, when we make reference to "Subject to Duty" in paragraph (1) of the Memorandum of Agreement, we are using the term in the light of Mr. Weatherill's definition, i.e., when the employee accepts a call. It is clear from the Arbitrator's rulings that once a man "accepts a call" to come to work, he has placed himself in the position of being subject to duty. This would apply at the home and away-from-home locations.

In the case of paragraph 2 of the Memorandum of Agreement, we have tried to provide for a process that is reasonable in terms of practicability but flexible enough to take care of any unusual case that might occur. In any case, it is understood that an individual caught up in these circumstances will not be made to suffer excessive loss of wages while being held off work when in fact that is not warranted. This aspect of the program will be carefully monitored in order to ensure that employees who have been declared as not having an addiction problem will be returned to work without undue delay.

During the course of our discussions it was learned that at least one other Region has benefited from the introduction of "Management/Union Committees". These Committees play a central role, together with addiction authorities, in assisting employees to overcome their drinking problem. Because these Committees are in the best position to know the facts, the practice has been for them to prepare and submit a joint recommendation on behalf of those individuals who they believe warrant special consideration for reinstatement. Because of the apparent success of the Committees elsewhere on the System the Company and the Unions involved in this project have agreed to establish a Management/Union Committee at a location to be decided upon by the parties for the purpose of evaluating the advantages of such an arrangement. This aspect of the program will be reviewed as part of the overall pilot project at the end of the trial period.

The success of this pilot project (as was the case with the introduction of the new discipline system) will depend to a large extent on the good faith and genuine commitment of those involved. To assist those connected with this endeavour the Company will provide appropriate training for both Company and Union (local) officers who are directly involved. Union officers will be paid for such training. In addition, all those employees affected by the changes will be apprised of the new program jointly by management and union officers and informed of the new provisions which apply to them under this new program.

APPENDIX "A"

CANADIAN NATIONAL RAILWAY COMPANY

Great Lakes Region

MEMORANDUM OF AGREEMENT between the Canadian National Railway Company, the United Transportation Union and the Brotherhood of Locomotive Engineers.

IT IS AGREED THAT effective October 6, 1980, the Company and the Unions noted above will commence a pilot project on the Great Lakes Region on a trial basis for a period of one year for the purpose of exploring a new approach dealing with the administration of U.C.O.R. Rule 'G' in accordance with the following:

1. Employees suspected of having consumed alcohol or using drugs while subject to duty or while on duty will not be dismissed on the first occasion when such incident is reported by a fellow employee or employees.

2. If the incident involves detection of a violation of this nature when an employee is reporting for duty, he will be sent home without pay and will be required to report as soon as an interview can be mutually arranged between the local Company officer(s) and local Union accredited representative(s). In any case the employee will be interviewed within 48 hours from the time he is removed from service unless mutually agreed between the Company officer and local Union accredited representative.

NOTE: It is understood that provided the employee has not commenced work, i.e. reported for duty and is on pay, he will be afforded the same consideration whether or not such incident is reported by a fellow employee or company officer. Normal practice with respect to the administration of Rule 'G' insofar as company officers are concerned will apply in all other circumstances.

3. If the incident occurs while a road or yard service employee is **on duty**, the employee will be relieved of duty by the remaining members of the crew immediately the incident is observed and in the case of road service, if safety permits, the train will proceed to the next crew change point and the incident reported and arrangements for interview as above will be made.

4. If during the joint interview it is determined that the violation was caused by **poor judgment** only (i.e., no addiction problem) the employee will be counselled on the seriousness of his actions and warned in writing with a record retained on his personal file that a repeat offence will result in dismissal.

5. If, on the other hand, it is determined that the employee has an addiction problem, he will be afforded the terms and conditions contained in the company policy dealing with problem drinking and alcoholism and a record retained on his personal file. An employee who refuses the decision of the joint local union and local company officers who conducted the review shall have the right to refer his case to a duly recognized addiction specialist who he will authorize to make an assessment of his condition and provide a confidential report to the CN Medical Department. A copy of this report will be made available to the General Chairman and District Manager. If in the opinion of this addiction specialist it is revealed that the employee does **not** have a problem the provisions of Item No. 4 of this agreement will apply. If it is confirmed that the employee has indeed an addiction problem, he will be afforded the terms and conditions of the company's policy. Failure on his part to take advantage of such opportunity could, after proper investigation of his case, result in his dismissal.

6. If, in the course of any Rule 'G' investigation it is determined that a fellow employee(s) was aware of the violation of the rule and did not report or take action on this knowledge, such employee(s) will also be subject to investigation and possible discipline.

7. The General Chairman may, after a period of not less than six months, make a recommendation to the General Superintendent proposing the reinstatement of an employee(s) who was discharged for violation of Rule 'G' when he believes there are special circumstances which warrant this action. Such cases will be thoroughly reviewed by the General Superintendent and the General Chairman will be advised of the position being taken by the Company within 30 days of receiving the General Chairman's recommendation. Any action taken by regional management will follow the procedure normally connected with the provisions of Mr. Latimer's letter dated October 12, 1976 dealing with reinstatement.

8. An employee counselled or warned as described previously or reinstated after discharge in accordance with Company policy and later found to have violated Rule 'G' again will be dismissed following investigation without benefit of any of the above procedures.

9. Employees governed by this Memorandum of Agreement will continue to retain their normal rights of appeal in the grievance procedure under their respective agreements.

It is understood and agreed that this pilot project will be subject to a review by the parties after a period of one year or at any time as mutually agreed.

This Memorandum of Agreement is subject to cancellation by any one of the signatory parties to the Agreement on 30 days' notice in writing to the other parties.

Signed at Montreal, Quebec, this 28th day of May 1980.

Gentlemen:

One of your demands submitted for the current round of negotiations related to the method of payment of guarantees and problems associated with that process. A particular problem you sought to redress was that the Union, through the Local Chairman, was not being apprised before the fact when boards were adjusted. You felt the Local Chairman's input, when decisions as to the magnitude of board adjustments are to be made, was necessary to ensure that the earnings of your membership not be detrimentally effected by "unilateral" actions on the part of Local Company Officers or their delegates at the time of board adjustments.

For the Company's part, we explained to you that a continuing and efficient operation were paramount, from our point of view, in determining board adjustments and, for the most part, that the Local Chairman is advised of board adjustments prior to their occurrence whenever it is practicable to so do. However, we remain adamant that the determination of board adjustments must remain tied to operational requirements so that such requirements remain economically efficient and viable.

Notwithstanding the Company's views regarding our responsibility to adjust boards, we are prepared to commit to you that the Local Chairman (or delegate) will be advised prior to the effective time of board adjustments of the particulars of such adjustments and the reasons therefore, whenever practicable, so long as board adjustments are not unduly delayed as a result.

Gentlemen:

During the National negotiations which culminated in the signing of the Memorandum of Settlement on March 17, 1982, the United Transportation Union asked that we provide a letter clarifying the intent of Agreements 4.16 and 4.3, insofar as the work required of Locomotive Engineers and Trainmen upon arrival at the final terminal of their trip where yard engines are not on duty.

During our discussions on the matter, you confirmed that you were not seeking to change accepted practices that presently exist but were concerned that at some locations Company officers were requiring your members, after turning their train over to the outbound crew, to take another engine from the shop track and perform industrial switching.

The Company informed you that your members will not be required to perform switching at the final terminal of the trip using another engine, after having turned over the engine consist on the train for which called to the outgoing crew, except when switching is required in connection with the set off of their own train or in cases of necessity such as rerailing cars, auxiliary service, handling stock or perishable traffic or where incoming power cannot be operated on yard or industrial tracks on account of track conditions.

We believe that generally speaking, line officers are arranging work on arrival at final terminals where yard engines are not on duty along the foregoing lines. However, we hope that the above clarification will clear up any misunderstandings in this regard.

Gentlemen:

During the recent discussions surrounding the re-write of U.T.U. Agreement 4.16, the Union requested revision of existing Article 38, Condition and Equipment of Caboose, to include wording which would reflect that Trainmen would not be compelled to leave a terminal with caboose not "in proper repair", where such terminal is a caboose maintenance point.

The Company's position was that while we were prepared to give favourable consideration to your request, there was some concern as to the possibility of abuse. For example, refusing to leave without a tea pot, or similar item, or delaying the train while a rear crew member performs an inspection to see that all of the various appliances were in proper repair. The United Transportation Union acknowledged it was not the intent of their request to condone such actions. Therefore, recognizing that it is incumbent upon caboose maintenance personnel to ensure cabooses are in proper repair, the Company is prepared, on the basis of this letter, to extend the following.

When cabooses are dispatched in road service on trains originating at a designated caboose maintenance point, Trainmen will not be required to leave such terminal if such caboose is not in proper repair.

Proper repair means that aside from the normal safety requirements, as they apply to the condition of the running gear, draft gear, and safety appliances such as hand grabs and side steps, the following conditions will prevail:

- (1) windows must be free of defects - this to mean without breaks or cracks which impede vision;
- (2) windshield wipers operating properly;
- (3) seat belts properly equipped;
- (4) lighting properly operating, consistent with safety;
- (5) operating hot plate and refrigerator, including means for providing cooled drinking water, either by means of mechanical water cooler or water in container form, in refrigerator;
- (6) operating toilet, properly maintained and vented so as to avoid unpleasant odours entering the occupied portion of the caboose;
- (7) stove which provides necessary amount of heat, without defects in fuelling and combustion; and
- (8) on cabooses equipped with enginotor, such enginotor must be in proper operating condition.

All of the above conditions shall apply only to trains originating at Gordon Yard, Taschereau Yard and MacMillan Yard, which are the designated caboose maintenance points.

It is further understood that trains will not be delayed for the sole purpose of Trainmen performing a qualify check of the above conditions on departure.

Dear Mr. Proulx:

As a result of the Notice served by the Company under the provisions of Article 79, a meeting was held on June 17, 1983, concerning the running of unassigned crews on the Gort and Napadogan Subdivisions. The Union requested that consideration be given to changing unassigned work train crews at Napadogan when it would not involve additional costs to the Company.

The Company has no objection to this request providing there are no additional costs and providing that the Union recognized the Company's right to, when required, operate through Napadogan and return, equalizing the mileage necessarily incurred.

The Company is prepared to man unassigned work trains in the following manner:

1. **Q.** If an unassigned work train was ordered out of Moncton to operate beyond Napadogan and return to Napadogan, who would man the assignment?
 - A. A Moncton crew would man the assignment and complete the trip or day's work. Mileage earned west of Napadogan would be accumulated for equalization purposes.
2. **Q.** If an unassigned work train was ordered out of Moncton to operate beyond Napadogan and return to Napadogan to be tied up for the night and then ordered the next day to operate from Napadogan to Edmundston, who would man the assignment?
 - A. A Moncton crew would man the assignment and complete the trip or day's work. Mileage earned west of Napadogan would be accumulated for equalization purposes. An Edmundston crew would be ordered the next day to operate the work train between Napadogan and Edmundston.
3. **Q.** If an unassigned work train was ordered out of Moncton to operate beyond Napadogan and return to Moncton, who would man the assignment?
 - A. A Moncton crew would man the assignment and complete the trip or day's work. Mileage earned west of Napadogan would be accumulated for equalization purposes.
4. **Q.** If an unassigned work train was ordered out of Edmundston to operate beyond Napadogan and return to Edmundston, how would it be manned?
 - A. An Edmundston crew would man the assignment and complete the trip or day's work. The mileage earned east of Napadogan would be accumulated for equalization purposes.
5. **Q.** If an unassigned work train was ordered out of Edmundston to work to McGivney and tie up for the night and then ordered the next day to work from McGivney to Edmundston, how would it be manned?

- A. An Edmundston crew would man the assignment and complete the trip. The mileage earned east of Napadogan would be accumulated for equalization purposes.
6. Q. If an unassigned work train was ordered out of Edmundston and worked three days between Edmundston and Napadogan and tied up at Napadogan on the third night and then was ordered the next day from Napadogan to Moncton, how would it be manned?
- A. An Edmundston crew would man the assignment from Edmundston to Napadogan and a Moncton crew would man the assignment from Napadogan to Moncton.
7. Q. If an unassigned work train was ordered out of Edmundston to work for two days between Edmundston and Napadogan and one day between Napadogan and McGivney returning to Edmundston on the fourth day, how would it be manned?
- A. An Edmundston crew would be ordered for the entire trip and the mileage earned east of Napadogan would be equalized.

The above questions and answers reflect the intent of the Company, and the principles outlined above will also apply to Sperry Cars, Speno Trains, etc.

Yours truly,

Gentlemen:

In the current round of negotiations, the Union submitted the following demand:

Amend the rehabilitation rules.

During discussions on this demand the Union indicated it was seeking a provision to protect the earnings of the senior employee who would be required to vacate his/her position to provide employment for a medically restricted employee. In response the Company indicated it was not prepared to pay employees an incumbency in such circumstances. Rather, the Company indicated that it was prepared to apply the provisions of Article 74 of Agreement 4.16 by designating positions on the seniority district as positions suitable for rehabilitation purposes. The Company was also prepared to extend the provisions of Article 74 to Agreement 4.3. As a consequence, the Company stated there was no need to accede to the Union's request for protection of an employee's earnings.

One of the specific concerns cited by the Union during these discussions involved medically restricted employees adversely affected by the implementation of a Material Change in Working Conditions pursuant to a notice served by the Company under Article 79 (139) of Agreement 4.16 (4.3). The Union explained that, as a result of such a Company-initiated change, a medically restricted employee could, in some circumstances, be unable to hold work at his/her home terminal. In such circumstances, the only recourse would then be an arrangement pursuant to Article 74.3 of Agreement 4.16 (11.1 and 93.1 of Agreement 4.3), allowing the junior medically restricted employee to displace a senior employee, not medically restricted, from a position suitable to such junior employee's medical restriction and the protection of such senior employee's earnings.

In response to this specific concern, the Company informed you that should such cases arise as a result of the implementation of a Material Change initiated pursuant to Article 79 (139), they would be discussed when negotiating measures to minimize the adverse effects of a Material Change in Working Conditions upon employees affected by the change.

Gentlemen:

During the current round of negotiations, the Union submitted the following proposal:

Leave of absence for Union purposes not to affect vacation entitlement.

During discussions on this proposal, the Company indicated that it was prepared to count time spent by Union officers on Union business as "days worked and/or available" for the purpose of calculating the number of days vacation entitlement. This would apply to Union officers elected or appointed to any of the full or part-time positions set out in paragraphs 80.1 and 80.2 of Article 80 of Agreement 4.16 and paragraphs 130.1 and 130.2 of Article 130 of Agreement 4.3. However, it was clearly stated that the calculation of actual vacation pay would still be confined to the wages actually paid by the Company as shown on Form T-4 issued by the Company.

The Union stated that this was fully understood.

Gentlemen:

Subsequent to the signing of the Memorandum of Agreement concerning revisions to Agreement 4.16 on January 8, 1986, a question arose in respect to the provisions of paragraph 59.6 or Article 59 (Experience of Employees) as they apply to the 30 trial trips in yard service, as specified therein, at the terminals of Toronto and Montreal.

A situation might arise where a new employee, who is hired at a terminal other than Toronto or Montreal, is cut-off at that terminal upon or shortly after completing the required 15 trial trips in yard service, and as a result, exercises his seniority into Toronto or Montreal, as the case may be. The question asked concerns this employee's status in respect to the 30 trial trips in yard service required at Montreal and Toronto.

It is possible that a number of situations could arise which are best explained by using, as examples, the home terminals of Sarnia and Toronto.

The first situation involves the employee who completed the required number of trial trips at Sarnia (30 in road service and 15 in yard service) but who is not placed on the working board upon their completion. Should this employee wish to go to work in Toronto, he or she would remain on the training program and complete an additional 15 trial trips in yard service at Toronto, under the terms and conditions associated with the training program.

The second situation involves an employee who completed the required number of trial trips at Sarnia and who, after being placed on the working board, works a few trips in road service only, but none in yard service, before being cut-off. Should this employee go to Toronto to work, he or she would be required to work an additional **15 shifts** in yard service at Toronto, as an additional member of the crew over and above the normal yard crew consist, before being considered qualified to work at Toronto. In this situation, because the employee is not on trial trips, he or she would be paid at the rate applicable for Yard Helper (less than one year's service).

The third situation involves an employee who completes the required number of trial trips at Sarnia and who works at least one but less than 15 shifts in yard service before being cut-off. Should this employee go to Toronto to work, he or she would be required to work an additional number of shifts in yard service at Toronto, again as an additional member of the crew, to make up the 15 shifts. Thus, an employee who had worked five shifts in yard service at Sarnia, would be required to work ten such shifts at Toronto before being considered qualified to work at Toronto. As in the second situation, while working such shifts, the employee would be paid at the rate applicable for Yard Helper (less than one year's service).

The fourth situation involves an employee who, after completing the required number of trial trips at Sarnia, works 15 or more shifts in yard service before being cut-off. This employee is considered qualified to work in both road and yard service at Toronto.

In the circumstances described in the first, second and third paragraphs above, where the employee is required to work as an additional member of the crew over and above the normal crew consist, the Yard Foreman will receive the allowance specified in paragraph 59.2. Of course, the Yard Foreman will be

expected to provide the advice, counsel and supervision specified in paragraph 59.3 to ensure safe operation and to assist the employee in the improvement of his skill and competence to work at Toronto and Montreal.

If the foregoing accurately reflects the understanding of the parties, please so indicate by signing below.

Gentlemen:

This correspondence is in connection with recent amendments to Agreement 4.16 including, among others, revisions to Article 63, paragraph 63.2, concerning combination service. Specifically, it deals with the addition of the Note to paragraph 63.2.

It is recognized that, except in certain isolated cases, the Company no longer operates passenger trains and, therefore, there is presently no reason to establish regular assignments which, during the course of a round trip, would work one tour of duty in passenger service and the other in freight service. However, it is understood that, should it become both advantageous and feasible because of changed circumstances to establish such assignments, then the Note to paragraph 63.2 of Article 63 will not apply to Trainmen on such regular assignments nor to spareboard employees relieving such regularly assigned Trainmen on a trip by trip basis.

Please confirm your agreement with this understanding by signing in the space provided below.

Gentlemen:

During the current round of negotiations, the Union served a demand to clarify the application of Article 54, "Reductions in Staff" as it relates to certain provisions found in Article 47, "Interchangeable Seniority Rights". In addition, the Union also served a demand to delete paragraph 54.5 of Article 54 from the collective agreement.

During our discussions, it became evident that it would be mutually beneficial to clarify the application of these particular provisions.

On this basis, it has been agreed that the parties will meet within 60 days of ratification of the Memorandum of Settlement to discuss the provisions in question in an effort to clarify their application and to discuss the clarification of any other provisions of the collective agreement as they may relate to the provisions of Article 47.

In the meantime, the parties agree that the provisions of paragraph 54.5 of Article 54 were not intended to be applied in a manner that would restrict an employee's exercise of seniority to the terminal at which he or she is currently assigned. In other words, an employee who is displaced from a district assignment is free to exercise seniority to any other terminal on the district, if he or she so desires, due regard being given to the type of service to which assigned.

Gentlemen:

This refers to discussions during negotiations relating to your demand on the condition of resthouses and yardmen's lunch rooms.

During the course of these discussions, you alleged that certain resthouses were not being maintained in a suitable condition.

It was agreed that should the union have any specific concern with respect to the condition or maintenance of any resthouse or yardmen's lunch room, the Local Chairman will bring it to the attention of the Superintendent in writing. The Superintendent will ensure that an investigation is made as soon as possible to determine what areas, if any, may require attention and, where necessary, the action needed to correct the situation. The Local Chairman will be advised of the results of this investigation in writing.

It was further agreed, that failing a resolution of the matters raised pertaining to the condition of these resthouses, unresolved issues would be brought to the attention of the General Chairmen and the District Manager for further handling.

Gentlemen:

During the current round of negotiations the Union submitted a demand to amend the Bereavement Leave provisions of the collective agreements in respect to the length of such leave. The amendment sought by the Union would have allowed the employee the entitlement to be paid for five working days exclusive of vacation and general holidays.

One of the reason behind this demand concerned road service employees who, as a result of being on bereavement leave, miss their assignment, or turn in the pool, which operates out of the home terminal on the third day of such leave.

Consequently, they are not in a position at the away from home terminal to work the return leg of that assignment. If the return leg operates on the following calendar day (i.e. on the day after bereavement leave has expired), these employees do, in fact, lose earnings.

While the Company would not accede to the Union's demand, it did agree that, in the circumstances described above, that is, if the return trip is on the day after bereavement leave expires the employee would be compensated pursuant to the bereavement leave provisions of the collective agreement. Therefore, an employee who misses a tour of duty out of the away from home terminal solely and directly as a result of having been on bereavement leave will be compensated notwithstanding that such tour of duty occurred outside the three calendar days specified in the bereavement leave provisions of the collective agreement.

Gentlemen:

One of the demands submitted by the Union during the last round of negotiations concerned the matter of what the Union termed a comprehensive calling rule. In our discussions on the matter it became evident to both parties that a large percentage of the Union's concerns have arisen since the consolidation of crew offices into the regional Crew Management Centres. As a result, a meeting was convened with representatives of the crew Management Centres in attendance. In our opinion, this session allowed both the Company and the Union to frankly address a number of these concerns and thereby gain a fuller appreciation of the problems faced by both parties.

Discussion centered mainly on the following topics: telephone response; line-ups; the advertising of both temporary and permanent positions; local calling practices; tape recordings; and the handling of grievances.

The Union was brought up to date on a number of developments that will provide solutions to several of the problem areas identified. For example, a computerized voice synthesizer system known as Crew Talk will, when installed, allow employees to access the Transportation Manpower Operating System mainframe computer to obtain such routine information as their standing on the working board, existing vacancies and so on; in addition, line-up information will be available on Crew Talk. As the Union was informed, Crew Talk has recently been installed at the Toronto Crew Management Centre. As Crew Talk has been readily accepted by the employees at that location, plans are in place to expand the system to other Crew Management Centres across the system.

Besides the obvious benefits associated with Crew Talk, the system will also free crew dispatchers to more readily handle those tasks requiring direct interface with employees seeking information. In the Company's opinion, this will ameliorate the situation in respect to telephone response.

The Company recognized that a problem has existed, at least at some locations, in respect to the handling of job notices from a centrally located crew management centre to their posting in notice books in the field. Certain steps have already been taken to address this concern. In addition, the Union was also informed that the Company is presently testing a computer program, known as JobTalk, that will make this information readily accessible to the employees by telephone. We expect that this system will be ready for installation in the first Crew Management Centre before the end of the year.

In connection with the matter of local calling practices, the Union requested that each local chairman be given a copy of the crew dispatchers' desk manual which contains the local calling practices presently in effect for each particular terminal. The Company expressed a great deal of concern about the use to which these manuals would be put and reminded the Union that the instructions contained in these desk manuals did not take precedence over the terms of the collective agreement. The Union agreed that, although there were many differences in calling practices from terminal to terminal, many of these practices could be standardized and indicated their willingness to resolve this matter. In order to facilitate this process, the Company agreed to provide a complete set of desk manuals to the General Chairman concerned.

In respect to the matter of tapes of telephone conversations, both parties agreed that the value of these recordings has been proven over time and, on this basis, the Company has agreed to increase the minimum retention period from 60 to 90 days. The Company also assured the Union that, in order to assist in the resolution of time claims or grievances, it was prepared to entertain requests from local chairmen for copies of specific taped conversations provided that the local chairman making the request can identify the date and approximate time of the purported conversation; the Company will review the tape for 30 minutes on each side of the time given by the local chairman. In addition, the Company indicated that it was prepared to respond to reasonable and specific requests from local chairmen for other information relevant to the disposition of a grievance. Requests that are not considered specific or reasonable or relevant to a particular grievance would not, however, be honoured.

We are confident that the foregoing measures will serve to eliminate a number of the irritants being experienced by both the employees and the staff of the Crew Management Centres.

Yours truly,

Dear Mr. Scarrow:

This will confirm our discussions held in Montreal, Quebec, which governs the conditions and rates of pay for Yard Operations Employee employed at Taschereau Yard in Montreal, Quebec.

The parties have agreed that a training program of a maximum of five days duration will be provided for employees who are required to qualify as Yard Operations Employee at Taschereau Yard. Employees from the ranks of yard foreman shall be considered for promotion to Yard Operations Employee in accordance to their relative standing on the Yard service employees seniority list. During negotiations, the matter of insufficient applications for training was discussed and both parties recognized that there must be a provision to assign sufficient employees to train to operate the belt pack locomotive. Accordingly, the following conditions will apply to employees who undertake such training:

- (1) Bulletins calling for applications for training as Yard Operations Employee will be issued to qualified Yard Foremen working in Yard service in the terminal of Montreal.
- (2) Applicants for training will be selected on the basis of their earliest seniority date on the Yard Foremen's seniority list with preference being given in the following order:
 - (i) Employees currently working as qualified Yard Foremen assigned to the Yard spareboard.
 - (ii) Other qualified Yard Foremen working in Yard service.

Note: In the application of this paragraph, the Local Chairman and the District Superintendent of Transportation or his delegate may mutually agree to alter the preference for training to suit local conditions.

- (3) Should the number of applications received pursuant to Items 1 and 2 above be insufficient for the purpose of filling regular assignments and to provide relief work, a sufficient number of employees will be assigned to train as Yard Operations Employee. Such assignment will be made in reverse rank of seniority in the following order:
 - (i) Qualified Yard Foreman assigned to the Yard spareboard.
 - (ii) Other qualified Yard Foremen working in Yard service.
- (4) Should an employee be assigned a position as Yard Operations Employee account no applications received pursuant to Articles 48 or 49 of Agreement 4.16, and a junior employee in yard service subsequently becomes available, the senior employee may elect to be released at the first opportunity and the junior employee assigned.
- (5) Upon successful completion of the training course, employees qualified as Yard Operations Employee shall have the designation YOE placed opposite their name on the Yard Foremen's seniority list.

- (6) During the period of time employees are assigned to the Company's training course, they will be paid therefor at the all-inclusive rate per 40-hour week of:

Dear Mr. LeBel:

With reference to our meetings and discussions which culminated in the signing of a Memorandum of Agreement covering the consolidation of Seniority Districts 1A to 8 into a new seniority district identified as the 19th Consolidated Seniority District.

During our discussions of Item 2 of the Memorandum of Agreement, it was pointed out that because of the various ways in which new employees were granted seniority dates over the years, the use of starting times for determining placement on the Consolidated Seniority List could inadvertently create situations where employees could have their seniority standing reversed.

It was agreed that this was not the intent of the parties during the negotiations and that employees being placed on the 19th Consolidated Seniority District List would retain the same order as on their former seniority district. For example, assuming five employees on the 7th Seniority District and two employees on the 5th Seniority District were hired on the same date, the five employees from the 7th Seniority District would retain their relative standing on the 19th Consolidated Seniority District but they could be interspersed by the two employees from the 5th Seniority District by applying the criteria set out in Item 2 of the Memorandum in determining their order on the Consolidated List.

If you concur with the above, would you please so indicate by signing and returning a copy of this letter.

Yours truly,

Dear Mr. LeBel:

During our negotiations, which culminated in the Memorandum of Agreement establishing the 19th Consolidated Seniority District, the Union raised a number of concerns in connection with this Memorandum of Agreement. These concerns are as follows:

- (a) The Company's use of employees on the spareboards of one Seniority District to fill short-term vacancies on another Seniority District, thereby reducing work opportunities to employees on laid-off status.
- (b) Familiarization trips for employees forced to work unfamiliar territory.
- (c) Use of Company bunkhouses.
- (d) The Memorandum would not be used by the Company to limit the application of Article 79 of Agreement 4.16 to changes which might be implemented subsequent to the signing of the Memorandum of Agreement consolidating the 19th Consolidated Seniority District.

With respect to Item (a) above, the Company agreed that this practice is not desirable and would closely monitor this situation in the future; however, it is recognized that when a tour of duty vacancy arises on short notice that this practice may be the only solution available to the Company in order to man the service. Should problems in this regard arise in the future, the Company will meet with the Local Chairman involved on a timely basis for the purpose of discussing and resolving the matter.

Although the Company was not prepared to accede fully to the Union's request for familiarization trips, the Company is prepared to provide familiarization trips as outlined in the Letter dated 19 September 1991 which is attached as an Appendix to the Memorandum of Agreement covering the consolidation of seniority districts.

After much discussion on the use of accommodations, the Company agreed to allow employees who exercise their seniority from one terminal to another, in the application of the Memorandum of Agreement, to use such facilities provided space was available and no increased cost to the Company results therefrom.

The Company also agreed that the Memorandum of Agreement establishing the 19th Consolidated Seniority District would not be used to limit or circumvent the application of Article 79 of Agreement 4.16 to changes which might be implemented subsequent to the signing of the Memorandum of Agreement.

We trust the foregoing satisfactorily addresses the concerns of the Union identified above.

Yours truly,

Dear Mr. LeBel:

With reference to our discussions held in Moncton, N.B., on 25 July 1991 with your Mr. B. Dube concerning the proposed amalgamation of Seniority Districts 1A to 8.

During these discussions, Mr. Dube pointed out that we have a number of employees who hold valid seniority dates on more than one seniority district and suggested that a letter be exchanged to clarify the seniority dates they will be accorded subsequent to the amalgamation. Mr. Dube further suggested that superior dates on a seniority district other than the employees' "home" seniority list that were gained by the employees voluntarily moving to another seniority district should be protected.

The Company is agreeable to the proposal put forward by Mr. Dube. We have researched our records and it appears that the following listing is an accurate representation of those employees. As indicated, we have shown the employees original seniority date on their "home" seniority list, their date on the seniority district they moved to, the date that will be used for consolidation purposes on other than the seniority district they are presently working on or protected on and the rationale for the dates on more than one seniority district.

F. LeRiche - P.I.N. 677713 - entered service as Trainman in Newfoundland and transferred to Moncton as a result of the closure. His seniority date on District 1A is 3 June 1965. This date will be used for consolidation purposes on all seniority lists except for District 6. His seniority date on District 6 is 14 November 1988, which he will retain.

S. MacKinnon - P.I.N. 679984 - entered service as a Trainman in Prince Edward Island and transferred to Moncton as a result of the closure. His seniority date on District 1B is 23 November 1969. This date will be used for consolidation purposes on all seniority lists except for District 6. His seniority date on District 6 is 1 May 1990, which was established through a Letter of Understanding dated 15 March 1990 and it will be retained.

All other employees on the Seniority District 1B have severed service with the Company with the exception of A.K. Vessey. Mr. Vessey is on laid off status and his consolidated date on all other lists will derive from his current District 1B date of 17 December 1971.

A.W. Crawford - P.I.N. 786702 - entered service as a Trainman at South Devon, N.B., on 28 November 1970, and this is his seniority date on District 8. He voluntarily transferred to District 6 on 13 May 1976, as shown on the seniority list. His District 8 date of 28 November 1970 will be used for consolidation purposes on all District lists except for District 6 wherein he will remain with his current date.

P.E. Jewett - P.I.N. 787581; G.W. Dean - P.I.N. 781046; F.M. Price - P.I.N. 783412; and K.H. Hunter - P.I.N. 123446 - all entered service at South Devon, N.B., and retain their original seniority date on District 8, A Memorandum of Agreement was entered into on 16 May 1991 to consolidate District 8 with District 6 and these employees were accorded a District 6 seniority date of 16 May 1991. For consolidation purposes on other than District 6, these employees will

be placed in accordance with their District 8 seniority date. There are no other employees on the 8th Seniority District list.

Providing there are no errors or omissions in the above and that you concur with the proposal put forward by Mr. Dube, would you please sign and return the original and one copy of this letter. If we are able to successfully conclude the ongoing negotiations on amalgamation of Seniority Districts 1A to 8, we would then use the above-noted information to place these employees on the consolidated lists.

This letter is in response to discussions held during the negotiations concerning the amalgamation of Seniority Districts 1A to 8 inclusive.

The United Transportation Union stated that familiarization trips would be necessary for employees having to work in an unfamiliar seniority district or terminal.

It was agreed by the Company that two familiarization trips would be provided to employees who are working on a territory that they are unfamiliar with on other than a tour of duty basis. If the employee is assigned to a joint spare board and would be required for both yard and road service, the employee could elect to take one trip in road service and one trip in yard service or take both trips on the road.

Additionally, due to the complexities of the switching operations at Moncton, Halifax and Saint John, it was further agreed that employees assigned to the joint spare board at these terminals would be provided two trips in road service and two trips in yard service providing they are unfamiliar with the territory.

Finally, it was agreed that arrangements for familiarization trips would be as mutually agreed between the Line Officer and Local Chairman at the terminal.

It is understood that any disputes arising from the application of this letter that cannot be resolved at the local level will be referred to the General Chairman and the District Superintendent for resolution.

During discussions which culminated in the signing of the Letter of Understanding, dated June 2, 1992 in respect to the matter of training and re-qualification under the Railway Employee Qualifications Standards Regulations, the Union expressed a concern about the effect that attendance on the training course would have in relation to the calculation of an employee's guarantee or an employee's incumbency.

This confirms that, in the calculation of either the guarantee or any incumbency pursuant to the maintenance of earnings provisions of various agreements, an employee in attendance on the training course will be deemed to be available for service. It is, of course, understood that earnings paid to an employee pursuant to the Letter of Understanding, dated June 2, 1992, will be used to offset payment of the guarantee or an incumbency.

During discussions which culminated in the signing of the Letter of Understanding, dated June 2, 1992 in respect to the matter of training and re-qualification under the Railway Employee Qualifications Standards Regulations, there was some discussion about the duration of the training course.

In this respect, the Company indicated that the course is presently structured in a four day format which includes First Aid training in addition to instruction and examination in the aforementioned Regulations. However, you were advised that changes to training methods or tools or revisions to course content might, at some time in the future, have some effect on course duration.

However, you were assured that any contemplated change to course duration will be communicated to the Union well before its implementation.

IT IS AGREED THAT:

1. Effective on October 25, 1992 the First Seniority District shall be established which shall be comprised of the 18th and 19th Seniority Districts.
2. The initial seniority list for road and yard service employees for the First Seniority District shall be prepared by dovetailing the present road and yard service seniority lists for the 18th and 19th Seniority Districts as follows:
 - (a) commencing, in seniority order, with the employee at the head of the seniority list;
 - (b) except that where two or more employees have the same seniority date on their respective lists, such employees will be placed on the dovetailed list in order of the time of day they commenced their first pay trip as a Brakeman/Yardman, where such can be readily determined for all employees described in this sub-paragraph (b);
 - (c) if employees as described by sub-paragraph (b) hereof have identical times shown for the commencement of their first pay trip (where such can be readily determined for all such employees), such employees will be placed on the dovetailed list in order of the date of their last entry into service with the Company;
 - (d) if employees cannot be placed on the dovetailed seniority list under sub-paragraphs (a) to (c) inclusive, they will be placed thereon by lottery.
3. Employees with a seniority date prior to or on the effective date of this Memorandum shall have preference, in seniority order, over other employees in the filling of vacancies as set forth hereunder:
 - (a) Those employees whose names appeared on the seniority list of the former 18th Seniority District will have preference in all service on the territory described by sub-paragraphs 46.10 to 46.13, inclusive, of Article 46 of Agreement 4.16.
 - (b) Those employees whose names appeared on the seniority list of the former 19th Seniority District will have preference in all service on the territory described by sub-paragraphs 46.3 to 46.9, inclusive, of Article 46 of Agreement 4.16.
4. Unless otherwise arranged between the designated Officer of the Company and the General Chairperson, runs in road service extending over more than one of the former seniority districts described by Item 3 hereof, which existed on or before the effective date of this Memorandum, will be operated by employees from each of the former seniority districts involved, proportionately as nearly as possible, on a mileage basis.
5. In the application of the forcing provisions of Agreement 4.16, the territorial restrictions as described by Item 3 hereof will prevail.
6. Preference rights established under previous agreements, including the Memorandum of Agreement dated June 12, 1991 concerning the establishment of interchangeable seniority rights on the former 11th Seniority District, the Memorandum of Agreement dated June 12, 1991

concerning the 18th Seniority District, and the Memorandum of Agreement dated September 19, 1991 concerning the 19th Seniority District, will not be affected by this Memorandum of Agreement.

7. Employees who are "protected freight employees" as described by Clause 1 of the Memorandum of Agreement dated March 29, 1992 (conductor only agreement) will retain such status on their former seniority district, but such status will not be transferable from their former seniority district to the expanded seniority district.
8. Notwithstanding the provisions of paragraph 47.12 of Article 47 (Interchangeable Seniority Rights - Road and Yard Service), the "change of service date" on the First Seniority District shall be the Spring and Fall Change of Timetables and bulletins shall be issued to the Seniority district.
9. An employee's former seniority district will be indicated on the seniority list for the First Seniority District by placement of the appropriate number next to his or her name. For example, employees from the former 18th Seniority District will have the number "18" placed next to their name.
10. The seniority list for the First Seniority District will be published as required by paragraph 46.17 of Article 46 of Agreement 4.16; and, in conjunction therewith, a separate list will be published for each former seniority district listing, in seniority order, the names of each employee who holds preference rights on such territory.
11. The application of other agreements, signed prior to the effective date of this Memorandum of Agreement and referring specifically to a certain seniority district as described y Item 4 hereof, will continue only on the specific territory described in each such agreement until otherwise changed or cancelled.

With reference to our discussions concerning the amalgamation of the 18th and 19th Consolidated Seniority Districts.

During the discussions, concern was expressed with the bulletining procedures previously established in the Memoranda covering the establishment of the 18th consolidated Seniority List and the 19th Consolidated Seniority List. It was suggested that the procedures established for the 18th and 19th Districts were not appropriate when considering the scope of the new 1st Consolidated Seniority District.

Therefore, it was agreed that all positions would be advertised to the 1st Seniority District at the Spring and Fall Changes of Time. Permanent vacancies occurring between changes of time would be bulletined firstly to the former Consolidated Seniority Territory (18th and 19th), as the case may be; and, if not so filled, will then be bulletined to the 1st Seniority District.

If you concur with the above, would you please so indicate by signing below.

During negotiations which culminated in an agreement in Toronto in May 1995, in respect to the matter of familiarization of territory, it was agreed the provisions of Article 20 of Agreement 1.1 and Article 16 of Agreement 4.16 would be, for the purposes of extended runs, amended to reflect :

- (a) To ensure employees are familiar with an extended run territory, implementation will be staggered so as to allow the conductor who is familiar with that portion of the run to serve as a pilot for the locomotive engineer who is unfamiliar with that portion of the run for three trips. This will be achieved by implementing the locomotive engineers' train runs one month prior to the implementation of the conductors' train runs. Upon completion of this phase, the locomotive engineer will serve as a pilot for the portion of the run that the conductor is unfamiliar with.
- (b) Consideration will be given to training by the same classification on heavy grade subdivisions.
- (c) The employee who performs the duties of the pilot shall be paid \$25.85 over and above all other wages earned for that tour of duty.

During negotiations which culminated in an agreement in Toronto in May 1995, there was some discussion on the conditions of locomotive cabs.

During our discussions the Company indicated it is committed to the Baultar, or equivalent, seat retrofit program which is presently ongoing on the road fleet of locomotives. This program is currently underway and is scheduled to be completed by May 5, 1997

One of the Council's demands during the current round of negotiations concerned the provision of a microwave oven on all road locomotives. It is our intention to order all new road locomotives and equip the existing road fleet with microwave ovens. Except for some locomotives that will be phased out in the next several years, all road locomotives will be equipped with a microwave oven by May 5, 1997. In the interim, when a locomotive consist has a unit equipped with a microwave oven it will be dispatched in the lead position when practicable.

Gentlemen:

Applications and Interpretation of the Collective Agreement

During the last round of negotiations the Council expressed discontent with the manipulation and obvious abuse of the Collective Agreement provisions. Instances were cited of situations where the Company had directed employees to perform or complete work, which was either contrary or blatantly in violation of the Collective Agreement.

The Council submitted a demand that in our view would provide the necessary disincentive for line officers to ignore the Collective Agreement provisions. Basically, this demand provided for a penalty of 8 hours or 100 miles payment when employees were directed or instructed to either violate the Collective Agreement or perform duties when the Collective Agreement had specific work rules or protections that afforded employees specific rights. The Council expressed concern and disappointment with the effect this was having on employee morale.

The Company was reluctant to include such provision in the specific Articles, but advised that they were committed to eliminating the instances when the agreements was ignored or abused. Although there were assurances given, that there would be continuous monitoring of obvious problem areas, the Council was unconvinced that this would have a positive effect.

The Company regarded this matter as a serious problem which required its immediate attention. Accordingly, it agreed that the parties would begin to document those occurrences to determine the root cause of the incidents for a period of six months.

Upon completion of the six months, or at any earlier time, the General Chairmen deem it necessary a meeting will be arranged with the undersigned to review the matters with the view of an undertaking the necessary action to correct the matter. In the interim, I expect that you will keep the undersigned current with any violations which need my personal attention.

Yours truly

Understanding on Training New Conductors

1. CCROU and CN Rail agree that Articles 60 and 65 of Agreement 4.16 shall be amended to reflect :
 - New employees will fall under the jurisdiction of the CCROU upon commencement of their training.
 - A minimum of 6 months cumulative service will be required to become a qualified conductor.

All other issues relating to training new conductors will be set aside during the mediation phase of the current process in order that the remaining issues between the parties can be resolved.
2. Within 90 days of a mediated settlement, a sub-committee will be formed consisting of representatives from both the CCROU and CN Rail. That sub-committee will commence to discuss issues relating to training new conductors.
3. If the sub-committee fails to conclude an agreement by October 31, 1995, the matter will be placed before an Arbitrator for final and binding resolution.
4. The Arbitrator shall employ Interest Arbitration. The Arbitrator will, unless mutually agreed, render a decision, on or before December 31, 1995 which will be placed into the consolidated collective agreement.

5. The sub-committee and Arbitrator will be guided by the principle that issues relating to training new conductors are:
 - minimum acceptable entry level standards
 - course content
 - jointly appointed on job trainers (OJT)
6. This agreement is conditional upon the parties reaching a mediated settlement of all issues on or before May 5, 1995, failing which the matter will remain an outstanding issue for resolution through arbitration.

Gentlemen

During negotiations which culminated in an agreement in Toronto in May 1995, in respect to the matter of the modified engine service training program for conductors, there was some discussion about the course structure and intent.

In this respect, the Company indicated that it is necessary in an extended run environment to have two employees who can operate the locomotive. The intent of the course is to provide the conductor the ability to operate the locomotive under the guidance of a qualified locomotive engineer. This will not affect their present duties as the conductor is still in charge of the train and the locomotive engineer is still responsible for the operation of the locomotive.

The structure of the modified engine service training course is as follows:

Technical & Rules Training - Gimli Manitoba 14 Days

- Basic Air Brake training Program
- Motive Power
- Simulator Training - 10 structured hours

On Job Training

- Joint Selection Process On Job Trainer
- Training with credible On Job Trainer - 2 weeks
- Review of runs with local officer, trainee and OJT, using downloads and evaluation sheets.

Upon successful completion of this program conductors will receive an Operator's Permit which will allow them to operate the locomotive when accompanied by a qualified locomotive engineer. While attending the training program the conductor will not suffer any loss of wages.

The Company and local chairperson will jointly examine cases where individuals do not reach qualification status within certain parameters. If a remedy is not found it will be elevated to the General Chairperson and District Manager for resolution.

Gentlemen:

During negotiations at Toronto in May 1995 which culminated in an agreement on implementation of extended runs/CSIP in Eastern Canada, we agreed to a process for implementation and ongoing monitoring.

It was decided in order to protect employees that a set of principles would be used to guide implementation and ongoing operation of extended runs. These principles are as follows:

Principles of Extended Runs/CSIP

1. Will not reduce the level of safety.
2. Will enhance transit time and reduce initial and final terminal time.
3. Employees will be provided accurate line-ups to allow sufficient rest prior to starting an extended run.
4. Employees will arrange to report for duty prepared to complete the assignment for which called.
5. At the crew ordering time extended run trains will be ready for the outbound crew to commence their duties to the extent possible with power on train, brake test completed, train coupled, etc.

6. Extended run trains will normally operate as hook and haul, however will perform customer services when other train service is not practicable i.e.:
 - pick up a bad order
 - service a plant when a switcher is not practical
 - set out or pick up when another method would delay traffic or disrupt the service plan
7. Both employees would be properly trained to operate a locomotive.
8. Cab conditions of locomotives will be improved within defined time frames to provide a more suitable ergonomic environment.
9. Marshalling and customer service activity in extended run territory to be primarily performed by road switchers and wayfreights that will not be operated as extended runs.

It was agreed for these principles to be used to provide maximum value, a set of measures and standards needed to be developed which tracked adherence to these principles. The measurement would be provided to the union and the company at regular intervals (monthly) and jointly reviewed on a regular basis. Both parties are committed to action when unacceptable deviation occurs.

The parties agreed to the following committee structure for implementation and ongoing monitoring of extended runs:

Regional Steering Committee - Permanent

Consisting of:

- 2 CCROU General Chairmen
- 2 Senior Company Officers such as the Regional Director Operations and 1 District Manager.

Frequency:

- Must meet or conference call quarterly or more frequently if performance dictates.

Mandate:

- Review standards/measures
- Ensure acceptable performance
- Resolve performance issues.

Regional Implementation Committee - Temporary

Consisting of:

- 2 appointees by the CCROU General Chairmen
- 2 Senior Company Officers

Frequency:

- Full time until extended runs are implemented.

Mandate:

- Determine standards and measures
- Establish detailed implementation plans for Eastern Canada including points covered in Attachment A.

District Committee - Permanent

Consisting of:

- 2 appointees by the CCROU General Chairmen
- The District Superintendent Transportation
- One other Company committee appointee.

Frequency:

- Must meet or conference call quarterly or more frequently if performance dictates.

Mandate:

- Review district measures and standards
- Ensure acceptable performance
- Resolve performance issues
- Elevate to regional level performance issues that can not be resolved at a District level.

Extended run standards and measures will be distributed regularly to all employees involved with extended runs. Standards will be adjusted jointly on a needs basis (i.e., as cab conditions improve, higher level of standard will be established, and in no case will the amount of line work increase to exceed conductor only criteria).

Prompt implementation would be jointly co-ordinated within defined time frames as defined in Attachment B.

Prior to the implementation, the parties agree that each affected terminal will be visited to explain to employees that CSIP and extended runs.

It is agreed that the appropriate Local Chairpersons will be assembled on each Region to explain the introduction of extended runs.

The parties agreed that employees will not be adversely affected by extended runs. However, in the unlikely event that there is an impact number of employees on the spareboard/furlough boards/laid off which can be attributed to the introduction of extended runs, the Regional Steering Committee will address the matter and determine what remedial action, including any benefits covered by the Material Change provisions of the Agreements.

Extended runs, crew sequencing and booking rest en route standards will be adjusted from time to time in keeping with extended run principles through the agreement of the Regional Steering Committee.

For the purposes of payment these committee meetings will be considered company initiated.

The overriding objective of the foregoing is to have extended runs function consist with the least possible exceptions against the principles we have established.

If the aforementioned accurately reflects the parties conversation, please sign where indicated.

Gentlemen:

During the current round of negotiations, the Union expressed concern about Road Crews not being given the opportunity to have a meal at a reasonable hour. It was emphasized that the revisions to the eating rules were not to jeopardize nor take away the rights for employees to have a meal in other than through freight service.

The Union raised different instances where employees were being denied the opportunity to eat at a reasonable time or at locations where there were suitable eating facilities during a specific time.

It is agreed that if there are suitable eating facilities at a location, employees would be allowed a reasonable opportunity to eat at this location rather than being told to leave the area to go to a location where it was known there were not suitable facilities. Employees are to arrange their work accordingly to ensure that eating does not disrupt customer service.

The Company commits to ensure that line officers are apprised of this directive of permitting employees to consume meals at a reasonable hour.

Yours truly,

Gentlemen:

This is in reference to our discussions concerning the new and critical Ultramar contract operating between St. Romuald and Montreal. As you are aware, this contract has the opportunity of new markets with this and other customers allowing rail to operate in this short distance market. However, the economics of such an operation dictated that a conductor only operation without any restrictions with respect to the duties which may be performed was a prerequisite. As well, the operation, due to the length of the run would also require an extended day of 11 hours before rest could be booked.

Both parties agreed this was a unique opportunity for the Company and employees to improve the Eastern Canada operation by acquiring new business and accordingly agreed the aforementioned would apply. It was hoped that co-operative ventures of this nature would lead to additional business opportunities.

Gentlemen

During the mediation/arbitration process the Company and Union, discussed the impact of consolidation of the Eastern Seniority District and Central Seniority District into one amalgamated seniority district.

It was agreed at that time, that subsequent to the finalization of these seniority districts, the parties would meet to determine a mechanism that would afford employees a fair and equitable method of applying and qualifying as Locomotive Engineers. The following principles were agreed to in this determination:

1. An initial bulletin requesting applicant to train and qualify as Locomotive Engineers will be issued to the 20th seniority district.
2. Employees desiring such training must apply on the initial bulletin, to ensure they do not suffer a loss of seniority.
3. Employees on the initial list shall establish their seniority ranking on the Eastern Seniority District in conjunction with their relative standings on the amalgamated 20th seniority district, which shall establish a master list for the purpose of training.
4. The Company shall train employees on the established Master List for terminal/locations which Locomotive Engineers are required, regardless of their standing on such list.

This order of training shall not prejudice the seniority of the applicants, as although upon completion is when employees are afforded seniority, they shall be placed on the Locomotive Engineers' list in conjunction with their ranking on the aforementioned master seniority list.

Employees who are on the master list, but who are not required at the time, shall retain their seniority standing, provided they attend the first available training course.

Subsequent to the training and qualifying of employees, the original bulletin, the Company will issue another bulletin, which shall request further applications from those employees desiring training/qualification as Locomotive Engineers.

The parties recognize, and agree, that if something arises which does not properly protect the vested seniority rights of employees, then necessary modifications can be made.

Copies of all bulletins will be provided along with successful applicants to the appropriate General Chairman.

Addendum No. 106B

ATLANTIC CANADA AGREEMENT

In accordance with the provisions of Appendix 14 of the Memorandum of Agreement dated 5 May, 1995, it is agreed that the following measures are being adopted to mitigate the adverse effects on employees who will be impacted by either;

- (a) the elimination of furlough boards
- (b) the introduction of two person crews east of Joffre;
- (c) the elimination of yard/road distinctions; and,
- (d) the implementation of terminal closures at Truro, Edmundston and Riviere du Loup.

It is further agreed these measures are being adopted in an effort to alleviate and/or eliminate the adverse effects for employees who are affected by the above-noted changes.

Employees who wish to avail themselves of one of the benefits listed below must make an irrevocable election at the time the changes are implemented, except as otherwise specifically identified within this document.

It is also agreed the number of separation/severance/education leave opportunities are limited to the number of surplus employees at the individual terminals or on the seniority districts. In other words, if we do not have any surplus employees at a home terminal or on the seniority district covering employees at that home terminal, employees will not be entitled to sever their services through retirement, resignation or paid leaves of absence.

I. EARLY RETIREMENT

Employees who are eligible for early retirement under the Company's Pension Plan(s) and who have 85 pension points as defined by the Pension Plan(s) Rules will be entitled to a lump sum payment equal to the present value of the monthly separation payment until age 65 as provided below, calculated on the basis of a discount rate of ten (10) percent per annum.

The monthly separation payment is the amount which, when added to the Company Pension, would give the employee an amount equal to a percentage of his average annual earnings over the best five (5) year period, as defined under the 1959 Pension Plan Rules in accordance with the following formula:

Years of Service at Time Employee Elects Retirement	% Amount as Defined Above
35 or over	80
34	78
33	76
32	74
31	72
30	70
29	68
28	66
27	64
26	62
25	60

NOTE: This lump sum payment will not be considered earnings for pension calculation purposes.

In the application of the above, eligible employees who are not members of the 1959 Pension Plan or who have entered the 1959 Pension Plan when it was reopened and did not purchase all eligible service will receive the lump sum payment calculated on the assumption that such employees did belong to the 1969 Pension Plan throughout the employees' career. Such employees will receive the payment due them in accordance with the paragraph immediately above minus any pension payments which would have been due to them had they been a member of the 1959 Pension Plan.

Employees aged 55 or over who receive an early retirement opportunity in accordance with this letter shall be entitled to have their group life insurance, extended health care and dental plan benefits continued fully paid up by the Company until age 65. At age 65, employees will be provided a paid-up life insurance policy, fully paid by the Company, in an amount equal to that in effect in existing collective agreements.

II. DEFERRED SEPARATION – OPTION A

Employees who are at least 50 years of age with at least 75 pension points who will be eligible for early retirement under the CN Pension Plan (s) Rules within five (5) years (i.e. employees who will have 85 points as defined by the Pension Plan(s) Rules within 5 years) may voluntarily elect to go on a deferred separation under the following terms and conditions.

Employees who elect deferred separation will be compensated on the basis of 65% of the Basic Weekly Pay of the permanent position held at the time the above-noted changes are implemented until such time as they are eligible for early retirement. Basic Weekly Pay will be determined in the same manner as provided for under Articles 78.13 and 79.13 of Agreements 1.1 and 4.16 respectively.

Employees who elect deferred separation will be paid on the same bi-weekly basis as they were paid while in active service with the Company. Normal deductions covering pension, income tax, etc. will be made in the usual manner.

Employees within five (5) years of eligibility for early retirement electing deferred separation will, at the time they qualify for early retirement under the Company's Pension Plan(s), be entitled to a separation allowance in a lump sum payment calculated on the basis of the following formula:

No. of weeks Salary Credited For Each Year of Service Remaining to Normal Retirement	Years of Cumulative Compensated Service
35 or more	6.0
34	5.9
33	5.8
32	5.7
31	5.6
30	5.5
29	5.4
28	5.3

No. of weeks Salary Credited For Each Year of Service Remaining to Normal Retirement	Years of Cumulative Compensated Service
---	--

27	5.2
26	5.1
25	5.0

Notes: This lump sum payment will not be considered earnings for pension calculation purposes.

A partial year of service remaining to normal retirement is to be expressed on a monthly basis, e.g. 4 years and 1 month (or major portion thereof) equals 4 1/12 (4/083) years.

Weeks of salary means the basic weekly rate of pay established at the time the employee elected this deferred separation option.

Employees who elect deferred separation in accordance with the provisions of Option A will accumulate credit for pension eligibility purposes while on the deferred separation plan.

Employees who elect the deferred separation plan in accordance with the provisions of Option A will be entitled to have their group life insurance, extended health care and dental benefits continued fully paid by the Company until age 65. At age 65, employees will be provided a life insurance policy, fully paid by the Company, in an amount equal to that in effect in existing collective agreements.

Option B

Employees who are at least 48 years of age with at least 71 pension points who will be eligible for early retirement under the CN Pension Plan(s) Rules within seven (7) years (i.e. employees who will have 85 points as defined by the Pension Plan(s) Rules within 7 years) may voluntarily elect to go on a deferred separation under the following terms and conditions.

Employees who elect deferred separation will be compensated on the basis of 65% of the Basic Weekly Pay of the permanent position held at the time the above-noted changes are implemented until such time as they are eligible for early retirement. Basic Weekly Pay will be determined in the same manner as provided for under Articles 78.13 and 79.13 of Agreements 1.1 and 4.16 respectively.

Employees who elect deferred separation will be paid on the same bi-weekly basis as they were paid while in active service with the Company. Normal deductions covering pension, income tax, etc. will be made in the usual manner.

Employees within seven (7) years of eligibility for early retirement electing deferred separation will, at the time they qualify for early retirement under the Company's Pension Plan(s) be entitled to a separation allowance in a lump sum payment calculated on the basis of the following formula:

No. of weeks Salary Credited For Each Year of Service Remaining to Normal Retirement	Years of Cumulative Compensated Service
35 or more	4.5
34	4.4
33	4.3
32	4.2
31	4.1
30	4.0
29	3.9
28	3.8
27	3.7
26	3.6
25	3.5

Notes: This lump sum payment will not be considered earnings for pension calculation purposes.

A partial year of service remaining to normal retirement is to be expressed on a monthly basis, e.g. 4 years and 1 month (or major portion thereof) equals 4 1/12 (4.083) years.

Weeks of salary means the basic weekly rate of pay established at the time the employee elected this deferred separation option.

Employees who elect deferred separation in accordance with the provisions of Option B will accumulate credit for pension eligibility purposes while on the deferred separation plan.

Employees who elect the deferred separation plan in accordance with the provisions of Option B will be entitled to have their group life insurance, extended health care and dental benefits continued fully paid by the Company until age 65. At age 65, employees will be provided a life insurance policy, fully paid by the Company, in the amount equal to that in effect in existing collective agreements.

Employees who are not eligible for Option B at the time the changes are implemented but who will attain age 48 or accumulate the required 71 pensionable service points prior to 31 December 1995 will be eligible for this benefit providing they make application for and may commence their deferred separation during the month in which they attain the required age or accumulate the required 71 pensionable service points.

III LAYOFF BENEFITS

Employees with more than two (2) years of cumulative compensated service shall be entitled to layoff benefits as prescribed by the provisions contained in the Offer of Settlement dated 5 May 1995 providing they meet the eligibility criteria described therein.

IV SEVERANCE PAYMENT

Employees may elect to take a lump sum payment in accordance with the following scale:

Less than 8 years CCS	\$15,000
More than 8 years CCS	\$80,000

Employees electing a severance payment shall be entitled to group life insurance and extended health and vision care benefits fully paid by the Company for a period of one year following the date of their resignation from service.

Employees electing a severance payment may, at their option, elect to receive the lump sum payment in two instalments over a 13 months period.

V EDUCATIONAL LEAVE OF ABSENCE

Employees who are not eligible for early retirement or the deferred separation benefits, will be entitled to a leave of absence for educational purposes, with pay for a period of up to three (3) years while attending an educational training program.

Employees electing this option will be paid a basic weekly rate of:

Employees regularly assigned as Locomotive Engineer:	\$850.00
Employees regularly assigned as Conductor	\$815.00
Employees regularly assigned as Assistant Conductors:	\$745.00

The education training program, for which the employee desires leave, must be approved by the Company prior to educational leave of absence being granted.

Employees granted educational leave of absence will be subject to being called to work while not attending courses during recognized school breaks. All outside earnings during this period of leave will be deducted from the employees' pay.

Upon completion of the training program for which leave of absence was granted or upon expiration of the period of time for which leave was granted, the employee must resign from Company service unless there is a permanent position available for which the employee is the qualified successful candidate.

VI RELOCATION EXPENSES

Employees required to relocate to maintain employment with the Company, will be entitled to the relocation benefits provided in Article 78 and 79 of Agreements 1.1 and 4.16 respectively.

In lieu of claiming relocation benefits as provided by the collective agreements, employees may opt for a lump sum payment of \$18,000 for home owners and \$7,500 for renters for relocations within the Atlantic Region; and \$25,000 for home owners and \$10,000 for renters who opt to relocate for work opportunities beyond the Atlantic Region.

VII MAINTENANCE OF EARNINGS

Maintenance of earnings to employees adversely affected by any of the above-noted changes will be provided in accordance with Article 78.13 and 79.13 of Agreements 1.1 and 4.16 respectively. Employees on non-essential brakemen's positions as of 31 August 1995 as well as employees affected by the closures of the terminals of Truro, Edmundston and Riviere du Loup will be entitled to maintenance of earnings in accordance with Article 79.13 of Agreement 4.16 and 78.13 of Agreement 1.1. To maintain the entitlement to maintenance of earnings, these employees must accept all higher-rated positions at their terminal or the terminal to which displacing.

VIII FORMER SYDNEY/STELLARTON EMPLOYEES

Employees in active service who were formerly located at either Sydney or Stellarton and who accepted alternate work opportunities at either Saint John or Edmundston, N.B. will be accorded first choice with respect to an early retirement or deferred separation option at the terminal where they are presently employed.

Employees electing early retirement or deferred separation as described in the preceding paragraph will be entitled to door-to-door moving expenses paid for by the Company should they desire to return to their former home terminal.

Former Sydney/Stellarton employees electing to take early retirement, or deferred separation, or resign with severance pay, or who are laid off and who had actually relocated their primary residence to either Saint John or Edmundston, N.B. will be given consideration for some additional relocation expenses over and above door-to-door moving expenses should they desire to return to their former home terminal.

IX MEDICALLY RESTRICTED EMPLOYEES

With the magnitude and scope of the operational and crewing changes to be implemented, situations may be encountered wherein employees with medical restrictions find their work opportunities severely limited. In such cases, it is agreed that both parties would work towards a mutually satisfactory solution based on the premise of reasonable accommodation under the terms of the provisions of the current collective agreements.

If it is determined that the extent of the medical restriction prohibits the employee from retaining employment within their respective collective agreements, every opportunity to provide alternate work within the Company will be explored. In some cases, this could require the employee to take training for alternate work opportunities providing the employee is deemed to be suitable and adaptable for such training.

In the event medically restricted employees are trained and qualify for alternate employment which involves relocation, the employee must relocate to the new work location. The Company agrees to provide relocation benefits in accordance with the provisions of Article 78 and 79 of Agreements 1.1 and 4.16.

The above-mentioned options provide full and final settlement of the measures to mitigate the adverse effects on employees on the Atlantic Region.

Signed at Moncton, New Brunswick this 2 day of August 1995.

Work Jurisdiction

Toronto, Ontario, May 13, 2001

G. Halle	CCROU Chairman
W.G. Scarrow	CCROU Vice-Chairperson

Gentlemen:

During this round of negotiations the Council raised concerns regarding the CCROU's jurisdiction to work performed within yards relative to that provided for in the collective agreements of other crafts.

Discussions between the parties recognized the work that has normally and historically been performed by the CCROU relative to other crafts. In this regard the Company affirms that switching activities performed in CN Yards and CN facilities will be performed by the CCROU, excluding shop track facilities as defined by shop track limits.

The parties recognized that this letter cannot serve to limit the rights of other crafts as contained in their respective agreements, such as the performance of duties incidental to their work. Nevertheless the Company will assign work to the CCROU consistent with the foregoing.

Yours truly,

(Sgd) Richard J. Dixon

Gentlemen:

During this round of negotiations the Council raised several issues with the Company with respect to employees learning the road. The Council was concerned that as a result of material change notices, normal application of the collective agreement, or employees forced to protect positions on the seniority territory account no applications received, employees may be required to work territory they were not fully familiar with.

The Company explained that there are already arrangements in place, some of them specifically negotiated as a result of material change notices. These arrangements ensured employees in the aforementioned circumstances were familiar with the territory. It was satisfied overall that all employees were properly familiar in the circumstances described. However, if there are any issues concerning the aforementioned, the matter should be handled directly between the General Chairman/Chairperson and the District Superintendent involved.

Gentlemen:

During the last round of negotiations, the Council advised the Company that on occasions, employees involved in critical incident situations were required to continue work. The Council was seeking assurances that in these incidents, such as those involving fatalities, employees would be relieved of duty without incurring any financial loss.

As you are aware, the Critical Incident Response Program is part of the Company's EFAP program and any contentious issues involving critical incident stress can be handled through the Senior Advisory Committee, of which the CCROU is a member.

However, to ensure all are aware, the program guide will be reissued to affected Company offices and Rail Traffic Control Centres.

The Council indicated this satisfied their concerns.

Gentlemen:

One of the issues the Council raised was paternity and maternity leave, with much of the dialogue centered on the use of light and modified duties for pregnant employees.

As you are aware, current Company policy for unionized employees requires that, upon request, and where practicable, the Company shall modify the employee's job functions or reassign her to another job, if the continuation of the current job functions poses a risk to the health of the employee, the fetus or child.

To resolve the issue, the Parties agreed that the Council shall participate in the modification of job functions or reassigning the employee to another job. If it is required, the matter would be handled between the General Chairmen/Chairpersons and District Superintendent.

The Sabbatical leave may be for a period of not less than 3 months and not exceeding 9 months and will be awarded on the basis of seniority. The deferral years will not exceed 5 years. It is understood that Sabbatical leave of absence will not apply in situations where such requests are to go work elsewhere.

Definitions:

It may be necessary in order to allot Sabbatical leave of absences that the normal manner in allotting vacations be modified to accommodate those wishing sabbatical leave. No Sabbatical leave will be taken between June 15 and September 15.

If the Sabbatical leave of absence is approved, it will be subject to the following conditions:

B. Henry	General Chairperson CCROU

Gentlemen

During this round of negotiations the Parties discussed the operation of single unit trains and the CCROU's concern that such necessitated the operation of units with the long nose leading from time to time.

The Company recognized the CCROU's concern and will dispatch trains with the cab in the forward position. When locomotives are on line and required to operate with the cab in reverse, all efforts will be made to turn the locomotive enroute.

Yours truly

One of the Council's concerns during this round of negotiations was the utilization of management personnel when qualified CCROU employees are available for the service required to be performed at the time.

This will confirm the Company recognizes that the main function of management is to direct the work force and not engage in work currently or traditionally performed by employees in the bargaining unit when qualified CCROU employees are available. It is recognized management employees will accompany crews from time to time when required to perform refresher training.

Gentlemen:

During the current round of negotiations the Council expressed concern with respect to repetitive violations of the Collective Agreements. Although the Company does not entirely agree with the Council's position, the Company is prepared to deal with this matter as follows.

When it is agreed between the Company and the General Chairperson of the Union that the reasonable intent of application of the Collective Agreement has been violated an agreed to remedy shall apply.

The precise agreed to remedy, when applicable, will be agreed upon between the Company and the General Chairperson on a case-by-case basis. Cases will be considered if and only if the negotiated Collective Agreements do not provide for an existing penalty.

In the event an agreement cannot be reached between the Company and the General Chairperson as to the reasonable intent of application of the Collective Agreement and/or the necessary remedy to be applied the matter may within 30 calendar days be referred to an Arbitrator as outlined in the applicable Collective Agreements.

NOTE: A remedy is a deterrent against Collective Agreement violations. The intent is that the Collective Agreement and the provisions as contained therein are reasonable and practicable and provide operating flexibility. An agreed to remedy is intended to ensure the continued correct application of the Collective Agreement.

Yours truly,

Re: Brown System of Discipline.

This will confirm discussions held during collective bargaining in 2004/2005 regarding the Company's approach to discipline.

To resolve the issue of discipline, for the life of the collective agreement(s) or until otherwise mutually agreed, the Company will utilize the Brown discipline system and standards in accordance with past practices and jurisprudence.

The Company and the Union agree that in the application of the Brown system of discipline, the Company may continue to issue discipline in the form of deferred suspensions (subject to Union appeal).

Gentlemen:

During the recent round of Collective Bargaining, the Union raised the issue regarding lunch periods and breaks for yard service employees. You indicated that there have been problems where employees did not receive a sufficient enough time to have their lunch, and at times, employees were not permitted the opportunity to have a coffee break(s) when the operation permitted.

In view of this concern raised by the Union, this will confirm that employees will be provided the opportunity to have their lunch break in a designated facility as discussed among Messrs. Armstrong, Boechler, Harrison and Ms. Madigan. I also advised and committed that employees will be provided the opportunity for relief from the elements of weather and, subject to the requirements of service, they will be afforded the opportunity for breaks during their shift.

I further informed you, that we have made a commitment that this will happen and will ensure all officers of the Company are made aware of this commitment. If, in the future, you believe we are not living up to this assurance, then I ask you to bring such circumstance to the immediate attention of the Senior Vice President in charge of the region.

In addition to the above, and as mutually agreed between us, we will conduct a thorough and complete review of this matter commencing no later than 60 days following ratification / implementation of the Memorandum of Agreement. Further reviews will be undertaken every 90 days thereafter. These reviews will be conducted by myself, and the Senior Vice Presidents of the Company and the respective General Chairpersons and the Vice Presidents of the Union.

I trust this commitment and assurance will satisfactorily resolve the Union's concern.

Yours Truly,

(sgd) E. Hunter Harrison

During the current round of negotiations the Union submitted a demand to reverse the decision of the Arbitrator (ref: Ad hoc Arbitration – Article 12 – Issued June 24, 2004) with respect to the decision regarding two terminals at one location (for example: Toronto North Terminal/Toronto South Terminal).

The parties agreed to restrict the award to only that portion that pertains to Road Switchers. Specifically, that Road Switchers are not restricted to terminal work jurisdiction at such locations. For clarification purposes and example, Toronto South Terminal Road Switcher(s) may operate on the jurisdictional territory of Toronto North Terminal and vice versa.

Gentlemen :

This is regarding our discussions in relation to Appendix E of the February 12, 2005 Memorandum of Agreement, which was revised on June 23, 2005. Our meeting in Montreal on November 1, 2006 concerning the application of the Appendix on December 31, 2006, and our ongoing discussions on this matter in relation to the application of the Appendix have raised certain questions. This letter reflects the Company's understanding of the application of the Appendix.

One of the items that we discussed was the integration of the changes and our mutual understanding on the application of the Appendix into one document, which is as per the following:

1. In the application of Article 55.7 and 91.11(a), protected employees with a seniority date on or prior to March 29, 1992 but subsequent to March 17, 1982 can only be forced (except as otherwise provided herein) within their respective seniority district (17th, 18th, 19th) after December 31st, 2006.

Such identified employees shall have the right to exercise their seniority (except as otherwise provided herein) within their respective seniority district (17th, 18th, 19th) after December 31st, 2006.

Protected employees with a seniority date on or prior to March 29, 1992 but subsequent to March 17, 1982 that have their home terminal in Montreal, either East (18th) or West (17th) can be additionally forced and exercise seniority to either Montreal West (17th) or East (18th).

2. Employees in the 17th seniority district with a seniority date subsequent to March 29th, 1992 up to and including May 31st, 2005 can only be forced (Article 55.7 and 91.11, excluding 91.11(a)) within the 17th seniority district after December 31st, 2006. Such employees can additionally be forced and exercise seniority to Montreal Terminal "East" (located in the 18th seniority district) after December 31, 2006.
3. Employees in the 18th seniority district with a seniority date subsequent to March 29th, 1992 up to and including May 31st, 2005 can only be forced (Article 55.7 and 91.11, excluding 91.11(a)) within the 18th seniority district after December 31st, 2006. Such employees can additionally be forced and exercise seniority to Montreal Terminal "West" (located in the 17th seniority district) after December 31, 2006.

NOTE: Montreal West (located in the 17th seniority district) and Montreal East (located in the 18th seniority district) remain as separate and distinct terminals, and as such continue to maintain separate spareboards, work jurisdictions and assignments, under the applicable terms and conditions contained in the 4.16 Agreement.

4. Employees in the 19th seniority district with a seniority date subsequent to March 29th, 1992 up to and including May 31st, 2005 can only be forced (Article 55.7 and 91.11, excluding 91.11(a)) within the 19th seniority district after December 31st, 2006
5. Employees hired subsequent to May 31st, 2005 (commenced training subsequent to May 31st, 2005) will only be allowed to exercise seniority in their respective hired seniority districts (17th, 18th, 19th) Such employees can be forced to such locations (Article 55.7) as provided in items 2, 3, and 4 herein, respectively, in consideration of the seniority districts in which hired (17th, 18th, 19th). Such employees, however, can be forced (Article 55.7) within the 20th seniority district up to and including December 31, 2006.
6. Employees identified in items 1, 2, 3, 4 and 5 herein who are unable to hold work on their respective seniority districts proper shall be allowed, at their discretion, to exercise their seniority within the 20th seniority district, subject to recall in accordance with the Collective Agreement. Such employees may, at their discretion, refuse recall and retain their relative standing consistent with the 20th Seniority List.

NOTE 1: It is understood and agreed that all employees shall establish and retain seniority standing on the 20th seniority district.

NOTE 2: Employees forced as per Article 55.7 and 91.11 will also be entitled to the provisions contained in paragraph 49.39 of Article 49 of Agreement 4.16.

NOTE 3: An employee's seniority district as referred to herein shall be considered the seniority district where hired.

NOTE 4: Employees who have exercised their seniority outside the respective seniority district (as identified herein) shall notify the Company no later than December 31st, 2006 of their intent to return to their respective seniority district.

Note 5: Employees forced out of their respective seniority district (as identified herein) or on a shortage bid outside of their respective seniority district (as identified herein) shall notify the Company not later than December 31, 2006 of their intent to return to their respective seniority district.

7. The 17th, 18th, and 19th districts are defined as follows :
 - 17th (as defined in Addendum 54 – Agreement 4.16)
 - 18th (as defined in Addendum 94 – Agreement 4.16)
 - 19th (as defined in Addendum 90 – Agreement 4.16)

During our discussions, it was agreed that the date of application of Appendix E would be delayed to January 31, 2007 and that the employees would still be required to advise the Company of their intention to exercise back to their original territory prior to December 31, 2006. The intention being that we would have a 30 day period to meet, review and address any issues that arose from the application of Appendix E, once the employees have indicated their intentions.

It is understood by both parties that in the application of this Appendix, there will be no loss of seniority for any employee.

The parties have agreed to review the issue of the application of seniority within the 20th Seniority District when an employee is displaced from a permanent position or when an employee's permanent position is abolished. The resolution of this issue will be covered in a separate letter between the parties.

Finally, the Company's position on employees currently not on their original seniority district who have been set up as locomotive engineer is that these employees will only be allowed to exercise back to their original seniority district when they are no longer able to hold work as locomotive engineer at their new location.

Questions and Answers in relation to the application of Appendix E are included as **Attachment 1** to this document.

If the above accurately reflects the contents of our discussions and your understanding of the application of Appendix E, kindly indicate your concurrence by signing in the space provided below:

APPENDIX "E"
Attachment 1

QUESTIONS AND ANSWERS

- 1 Q. What is the purpose of Appendix E?
- 1 A. To re-establish certain former seniority districts for the purpose of limiting the forcing provisions of the Collective Agreement to apply only to (within) such re-established former seniority districts. Further, to restrict the exercise of seniority for "cut-off" employees solely to (within) the re-established former seniority districts.
- 2 Q. In consideration of item 1 herein, can a laid-off or cut-off employee be forced outside of their respective re-established seniority district?
- 2 A. No.
- 3 Q. In consideration of item 1 herein, can a laid-off or cut-off employee exercise seniority outside of their respective re-established seniority district?
- 3 A. Cut-off employees cannot exercise their seniority outside of their respective seniority district as they stand for work at other locations within their seniority district. Laid-off employees can exercise their seniority, with recall rights, over the 20th seniority district as such employees do not stand for work within their seniority district (reference item 6 – Appendix E).
- 4 Q. Will the Company force an employee from Montreal 18th into Montreal 17th before forcing an employee from within the 17th district from another terminal (example Toronto)?
- 4 A. Yes. The same is applicable for the Montreal 18th forcing. The Company will force from Montreal 17th to Montreal 18th prior to forcing from Joffre 18th for example, in the application of Articles 91.11 and 55. If none are available, then the Company will force as per the collective agreement from other terminals.
- 5 Q. How does Appendix E affect the re-established 17th and 18th seniority district at Montreal?
- 5 A. The application of the Collective Agreement at and between Montreal West (17th) and Montreal East (18th) is not affected by the application of Appendix E. Simply put, what was in effect at and between these locations prior to December 31st, 2006 remains applicable and in effect subsequent to December 31st, 2007.
- 6 Q. Can a 17th seniority employee, working Montreal East (18th seniority district) be forced outside the 17th, seniority district if subsequently cut-off at Montreal East (18th)?
- 6 A. No.
- 7 Q. Can a 17th seniority employee, working Montreal East (18th seniority district) who is subsequently cut-off exercise seniority outside the 17th seniority district?
- 7 A. No.

- 8 Q. Can an 18th, seniority district employee, working Montreal West (17th, seniority district) be forced outside the 18th seniority district if subsequently cut-off at Montreal West (17th)?
- 8 A. No.
- 9 Q. Can a 18th seniority employee, working Montreal West (17th seniority district) who is subsequently cut-off exercise seniority outside the 18th seniority district?
- 9 A. No.
- 10 Q. With the initial application of Appendix E, will employees of the 17th seniority district, working at Montreal East (18th) be given an opportunity to return to their former home terminal in the 17th seniority district?
- 10 A. Yes, but it is understood that this is an exception to the application of Appendix E. To point, after the initial application of Appendix E the application of the Collective Agreement as identified in item 5 herein applies.
- 11 Q. With the initial application of Appendix E, will employees of the 18th seniority district, working at Montreal West (17th) be given an opportunity to return to their former home terminal in the 18th seniority district?
- 11 A. Yes, but it is understood that this is an exception to the application of Appendix E. To point, after the initial application of Appendix E the Collective Agreement as identified in item 5 herein applies.
- 12 Q. With the initial application of Appendix E how will employees that are currently working outside of their original seniority district be returned to their original seniority district?**
- 12 A. After being canvassed, those employees that have so indicated their intention in a letter to the Company will be immediately returned to their original seniority district. Employees may also request an extension up to the change of card at the end of April 2007.

However, if they so desire, employees from Montreal West (17th) who are currently working on Montreal East (18th) may also select to remain in Montreal East (18th). These employees will then only be allowed to apply for positions on Montreal East (18th) at the change of card.

Re: 746 Bulletining

Dear Mr. Robbins;

During this round of negotiations, the issue of bulletining and filling of positions was discussed in regards to collective agreement 4.16.

As you are aware, 746 bulletining already exists under collective agreement 4.3. The Company was seeking in negotiations to expand this method of bulletining and filling positions to the conductors covered under collective agreement 4.16. The parties have agreed to resolve the matter based on the following commitment:

The parties commit to meet during the closed period of the collective agreements to review 746 bulletining if the locomotive engineers working under collective agreement 1.1 accept 746 bulletining.

Gentlemen:

During negotiations we discussed the issues and concerns with respect to fatigue and the importance for employees to access their rest provisions within the collective agreement in a functional manner.

I understand those concerns and appreciate the need to address those concerns while ensuring that employee needs are balanced with safety and reasonable actions to minimize the impact upon operations and other employees. I will advise all company officers that we shall waive the work now grieve later principle if an employee seeks to book rest, where the employee is fatigued on the job and seeks to be relieved.

Employees will be relieved of duty in accordance with the provisions found in Article 122 of the former BCR Agreement, Article 35 of the 4.3 Agreement and Article 51 of the 4.16 Agreement. The company commits to making arrangements for having the employee relieved of duty in the most efficient, timeliest manner possible using forward planning.
